

Somalia March 2015

Emergency Shelter construction for IDPs in Urban Kismayo - March 2015

STRATEGIC OBJECTIVES

SO1: contribute to the protection of displaced people, including those affected by natural hazards, through provision of NFIs and Emergency shelter.

SO2: Improve the living conditions of the protected internally displaced persons (T-shelters, permanent shelter and improved land tenure).

NEED ANALYSIS

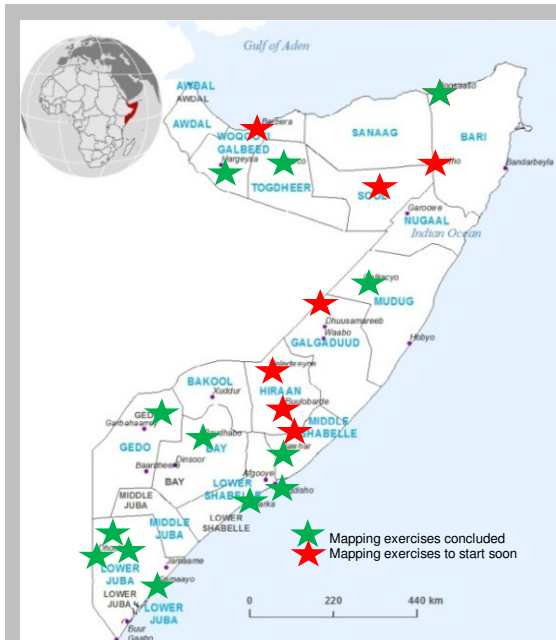

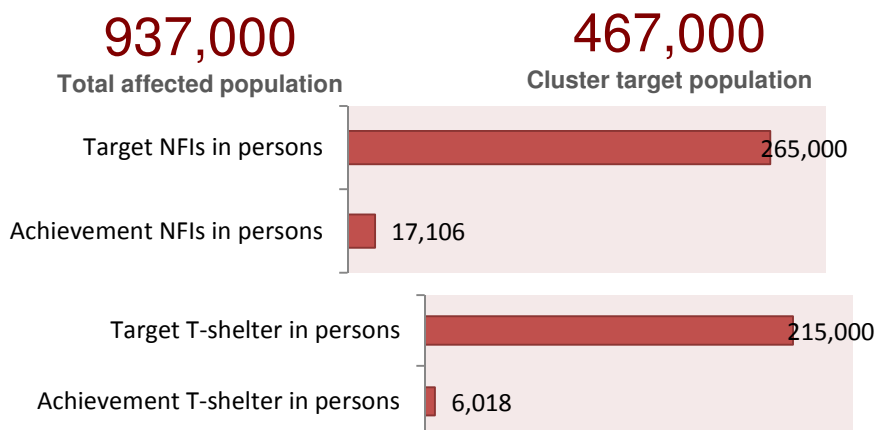

Somalia continues to face a severe humanitarian crisis with displacement across the country from evictions and inter-clan conflicts.

Hundreds of displaced people were evicted from camps on government owned and private land in recent months by the Interim Juba authorities and landowners. Some 328 families are reported to have been forced to move from their temporary shelters in various places. The affected families were prevented from shifting temporarily to any other plot in the town, and later camped at Dalhiska on the outskirts of town. A further 180 families in Barawe camp were also been forcefully evicted in March. Similarly another group of 45 families in Daljir camp building were ordered to vacate.

HIGHLIGHTS

- ❑ While gaps in shelter and NFI needs persist, the Shelter Cluster has pioneered innovative approaches in data collection and remote mapping to improve the baseline information on displaced communities. The Shelter cluster has rolled out the 4W on-line matrix to make reporting evidence and field based.
- ❑ Shelter cluster has advocated strongly with the authorities in various regions for longer term land tenure agreements.

KEY FIGURES

KEY DATES

Crises: Clan conflicts; Floods, Military offensive, Drought, Fire and evictions
Activation of Cluster: 2006

CLUSTER TEAM - Contacts

Cluster lead agency : UNHCR
Co-lead: UNHABITAT
Cluster coordinator : Martijn Godderris
