*Targeting based on either full caseload or estimations of number of HH living under the poverty line with completely/partially destroyed houses

**Where HH data is missing, assumptions were made on the number of HH reached with emergency shelter interventions. The assumption is HH received either an average of 2 tarps, or 1 tent, or 1 shelter box, or 1 shelter kit, or 1 tool kit, and that there weren't multiple items distributed to the same one HH.
