COORDINATION UPDATE

- Flash Appeal – thanks for inputs
 - Two figures – what we could do with our capacity, what is realistic with operating conditions
 - 614mUSD vs 227mUSD
- Fence Road – unfortunately no new prioritizing this week, but please continue to send your items for the FR to the cluster team by Tuesdays.
- Still prioritizing
- One organization got tents to the north but about half were looted
- Looting – please get your organisations to fill in the online form
- Revocation of evacuation orders – this could mean people returning to homes; we need to have a plan to go with them
- 5ws deadline tomorrow

NORTHER GAZA FIELD VISIT

- Visit to Gaza city with OCHA, Protection, SMWG, Shelter, NRC
- 5 days
- Visited five sites where newly displaced people are sheltering:
 - Al Karmel Collective Center (Government School)
 - Rimal Prep Boys School (UNRWA DES, site ID: GZA0462)
 - Middle East Council of Churches (Collective Center in a private building)
 - Al Yarmuk Stadium (makeshift site)
 - Al Mawhobin School Collective Center and Makeshift Site (GZ3027)

NORTHER GAZA FIELD VISIT

- Existing shelter options do not provide enough space per person, adequate safety or privacy, lockable doors or partitions for families. Despite the crowded conditions, newly displaced populations prefer to live in collective centers or to return to their damaged shelters as opposed to sheltering in tents or makeshift sites.
- However, this might be slowly changing due to the huge needs – but people will take tents to their homes
- Key needs:
 - clothing,
 - Mattresses and blankets
 - Tarps
 - tents especially for those living in latrines and makeshift shelters).

NORTHER GAZA FIELD VISIT

- Cluster meeting with partners and with SMWG
- Discussed Shelter vs SMWG
- Discussed key shelter interventions
- Partner interventions – clothes/NFIs mostly
- No access to Jabaliya
