Tarpaulin Sheets for Shelter Cluster:

- A meeting was held yesterday for planning of UNICEF's winterization response in collaboration with the Shelter Cluster, specifically regarding the distribution plan for tarps in Gaza.

Shelter cluster needs to provide a list of shelter partner who have the capacity and experience in such interventions to UNICEF for their assessment and final selection.

Interested partners have to send me their details including their assessments regarding the needs for tarpaulin sheets in the displacement settings including: informal sites, makeshift shelter sites, damaged homes, and host community, in addition to the information related to their capacity to distribute the tarps per day, and the geographical locations of their coverage.

The expression of interest is required to be shared with me no later than 1:00 pm tomorrow
