Roundtable on
**Achievements &
Operational Plans**

Objective: Ensure that our collective response efforts are well communicated to partners, donors, media and general audiences!

- **Achievements** – type of interventions, HH reached, locations, timeframe, etc.
 - **Challenges** – looting of supplies, access challenges, etc.
 - **Procurement** – quantities of stocks arriving to the country, type of stocks, timeframe, where will the stocks be prepositioned – particularly given the incoming flood season.
 - **Assessments** – e.g., needs assessments outlining specifics with respect to Shelter and NFI needs as well as market assessments on NFIs, shelter materials, or Cash for Rent.
 - **Context and impact** of interventions – e.g., any successes with respect to cash for rent, how is sustainability achieved, what about tenure security?
 - **Interventions in the host community** – with 67% of the population staying in host community – what has been achieved so far? Cash for shelter for the families hosting IDPs can be an option, or preselecting landlords to improve their housing in order for them to subsidize rent for IDPs – this can include negotiating longer-term tenure security.
 - **Etc.**
