

Photographer: Shelter WG Coordinator Photos: Distribution of Shelter and NFI Kits, Far North region.

HIGHLIGHTS

- According to last data collected by IOM during the Multisectoral Needs Assessment and the analysis by the Shelter/NFI Sector Coordination Team a total of 1,1 M people need adequate shelter and household items.
- *Domicide* - that is the intentionally burning of properties to deprive people of their right to housing - affected almost 10,000 families in Cameroon since the beginning of the conflicts

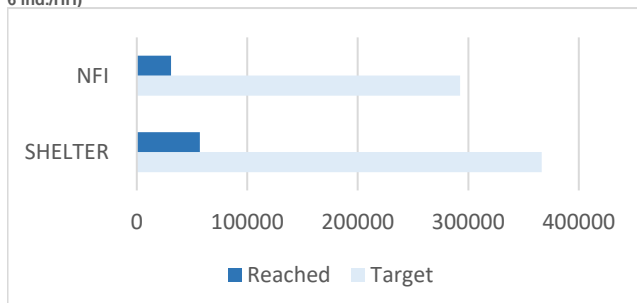

RESPONSE

- A total of 80871 people received NFI assistance and accessed adequate shelter through emergency – transitional – durable interventions
- In the Far North region 5602 households have been assisted with shelter items/kits and household items while a total of 1892 households gained access to transitional/emergency shelters and 1170 got their house rehabilitated or reconstructed
- In the North-West, South-West regions 5464 households have been assisted with shelter items/kits and household items while 1982 households gained access to shelter through rental support

GAPS / CHALLENGES

- For the first time in three years no partners reported activity during the month of June in the North-West and South-West regions
- Humanitarian access is progressively shrinking in the far North due to the spread of violence with humanitarian staff also targeted
- Lack of a contingency stock
- Partners capacity in applying for funds and absorb them
- Lack of qualitative funding for a qualitative shelter and NFI response that satisfy people in need. Qualitative funding means flexible, timely, multi-year, local and traceable

COVERAGE AGAINST TARGETS (Individuals assisted, 6 ind./HH)

CLUSTER TEAM

National Coordinator

Francesca Lubrano di Giunno (UNHCR)

KEY DATES

On the 17th of October 2018, the Shelter Cluster was activated for the South-West and North-West regions of Cameroon to support the response to the Anglophone crisis. In the Far North region the Shelter WG exists since 2015 to respond to displacement generated by tensions at the border with Nigeria, seasonal flooding, inter-community tensions.
