

Photographer: IOM / AADC Photos: Distribution of Shelter and NFI Kits at DIGA ARABE, Maga, Department Mayo Danay, Far North region.

HIGHLIGHTS

- According to last data collected by IOM during the Multisectoral Needs Assessment and the analysis by the Shelter/NFI Sector Coordination Team a total of 1,2 M people need adequate shelter and household items. *Domicide* - that is the intentionally burning of properties to deprive people of their right to housing - affected almost 10,000 families in Cameroon so far.

RESPONSE

- A total of 155,204 people received NFI assistance and accessed adequate shelter through emergency – transitional – durable interventions.
- In the Far North region 11,600 households have been assisted with shelter items/kits and household items while a total of 1,200 households gained access to transitional/emergency shelters and almost 3,000 got their house rehabilitated or reconstructed.
- In the NW-SW regions 14,500 households have been assisted with shelter and household items while 2,500 households gained access to shelter through rental support.

GAPS / CHALLENGES

- Funds reduction which does not necessarily impact the number of households assisted rather the quality of assistance.
- By the end of 2023 if additional support is not provided then 440,000 vulnerable people out of the 700,000 planned to be assisted will be left unsheltered or in inadequate shelter, will experience degradation of their health condition, food insecurity, discrimination, violence.
- Increase in qualitative funding for a qualitative shelter and NFI response that satisfy people in need. Qualitative funding means flexible, timely, multi-year, local and traceable.
- Hire specialized staff for the implementation of alternative shelter solutions in remote challenging contexts.

COVERAGE AGAINST TARGETS

(Individuals assisted, 6 ind./HH)

CLUSTER TEAM

National Coordinator
Francesca Lubrano di Giunno (UNHCR)

KEY DATES

On the 17th of October 2018, the Shelter Cluster was activated for the South-West and North-West regions of Cameroon to support the response to the Anglophone crisis. In the Far North region the Shelter WG exists since 2015 to respond to displacement generated by tensions at the border with Nigeria, seasonal flooding, inter-community tensions.
