Preparedness Measures

Steps to be followed during Cyclone Danger Signal

When Danger Signal No. 6 and 7 are hoisted then below instruction according to the Standing Order on Disaster should be followed:

- People with-in the warning area may take shelter in pucca buildings or cyclone centers.
- People should stay away from the sea or river bank.
- Watch the main areas which will / may hit first and stay in safe shelter until the severe storms end.
- The first responding institutions should come forward to help peoples, specially the women, children, elderly and the disable and wait until further notice from the EOC.

If the danger signal is upgraded to No. 8 then below instructions should be followed:

- People should be evacuated to safe buildings or cyclone shelters.
- Watch the main areas which will / may hit first and stay in safe shelter until the severe storms end.
- The first responding institutions should have full preparedness for emergencies and wait until further notice from EOC.

Under these circumstances relevant personnel are requested to follow instructions related to the disseminated Disaster Danger Signal.
