

KEY FACTS

Needs

31.636 Number of households in need of shelter

Emergency activities

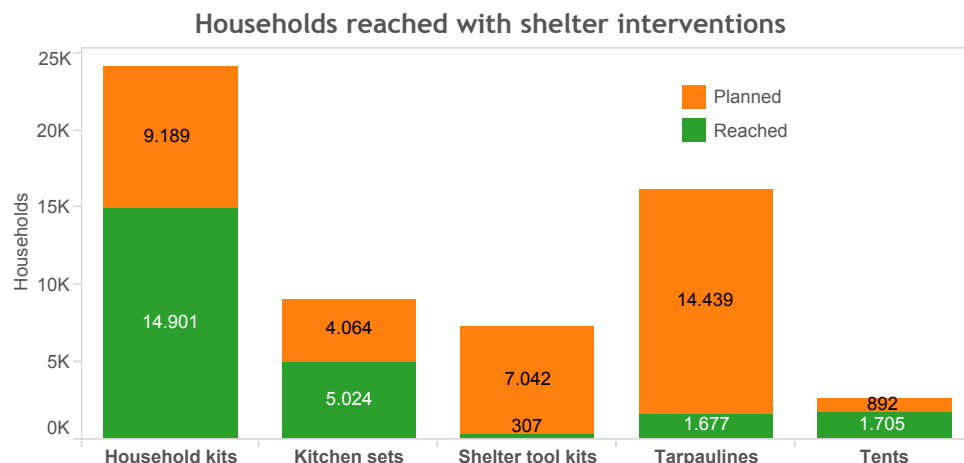

3.382 households reached with emergency shelter solutions (tarpaulines or tents)

14.901 households reached with Household non-food items (blankets & mats)

5.024 households reached with kitchen sets

Support to self recovery of shelter

307 households with access to toolkits

* Shelter toolkit should be according to cluster standards

* Tents for emergency shelter

* tarpaulins or other sheeting materials (cgi or plastic sheeting)

* Shelter toolkit include i.e. blankets and mats

GAPS

- According to the Ministry of Land, Housing and Urban development another 232 tents.
- A total of 2700 households need to be relocated from camps, as they are overcrowded.
- Despite ongoing provision of shelter and NFI by several actors, it remains to be a key priority in the displacement sites; the provision so far has been in the overall inadequate;
- There is a need for more camp management actors to support camp site identification and management.
- There is a need for a damage assessment at household level to find the number of houses partially damaged and totally destroyed.
- Lack of clarity of the number and status of the camps and the exact number of the displaced remains to be a critical gap;

Agency shelter activities

RECOMMENDATIONS

1. 4W and Assessment data urgently to be provided/improved
2. Camp Management support critically under resourced
3. IOM to scale up rapidly on CCCM
4. Urgent need for family kits, shelter kits, materials and tarps
5. Common Guidance on standards for Shelter and HH NFIs urgently to be defined
6. ESC/CCCM Cluster to coordinate activities with Health, WASH and Protection Cluster to ensure coherent response - e.g. gender issues, mosquito netting, hygiene articles, HH level latrines.
7. Cluster to start working on safe re-construction (IEC materials) swiftly
