2. Introductions – Everyone
3. Working Group TOR – Andrea with input from everyone
4. Discussion on frequency of the meetings – Andrea with input from everyone
Call for co-chairs – for everyone's considerations
5. Questions/AOB

Welcome and short background

- The earthquake and the humanitarian response, as well as the recovery and reconstruction efforts all have environmental impacts.
- The Shelter Sector requested special environmental assistance and the Early Recovery Cluster includes agencies with environmental expertise
- Within Türkiye there are also many environmental organisations with environmental technical expertise.
- By working together we can minimise the negative environmental impacts and create opportunities to have positive environmental impacts.

Introductions

Please introduce yourself and your organisation

Working Group TOR

Draft TOR Environment Technical Working Group
- Google Docs

Endorsement of the TOR

When should the working group meet and how should we work?

Once per week?

Once every two weeks?

Proposal to meet again next week and to establish the regular meeting schedule

Is Fridays at 1 p.m. a good time?

Can participant organisations consider if they would like to co-chair or is a rotating co-chair an option

Questions, comments and AOB
