5. Sub-national Cluster Updates
6. Updates from TWiGS
7. AOB

The National SNFI Cluster Coordinator introduced xxxx who will be supporting sub-national cluster coordination.

#### 1. Updates from ICCG and Flash Appeal Revision

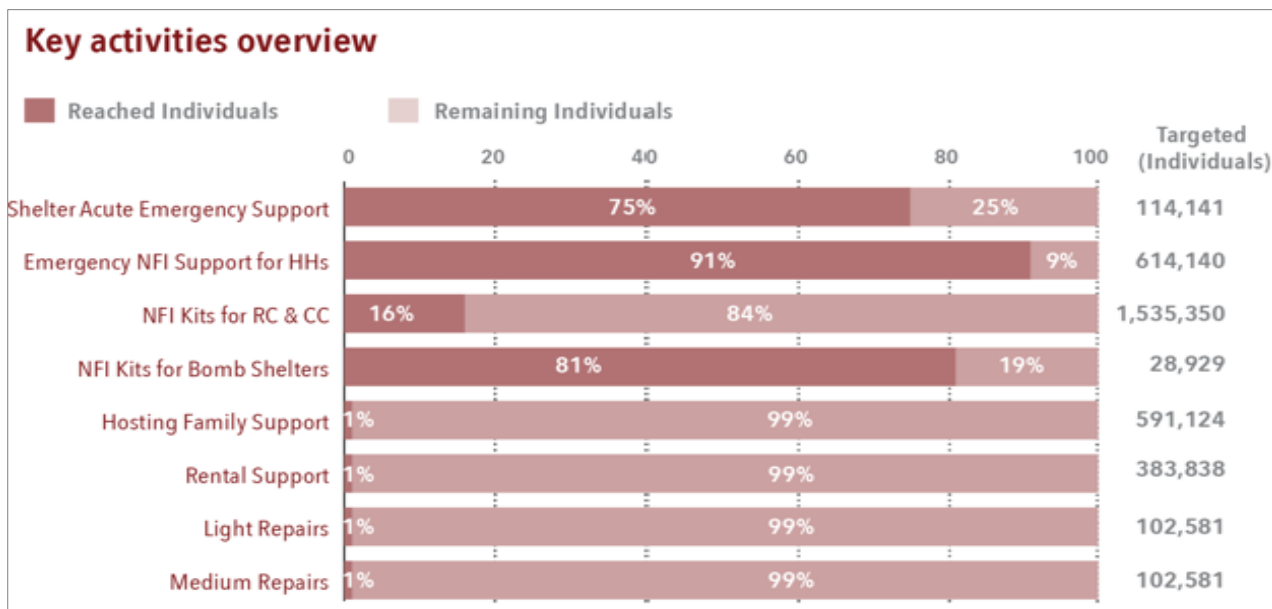

- According to the revised Flash Appeal, the shelter cluster PIN is 11.1million with a target of 4million and funding requirement of 477million. Cash for rent is no longer a priority activity in the revised Flash Appeal ([presentation attached](#)).
- National SNFI Coordinator noted that the UHF standard allocation with an envelope of 60 to 70million over 12 months is coming up. Proposals will require a clear inclusion of CSOs. The timelines and more details are in the presentation attached.
- The timelines for HNO-data collection and analysis and HRP response planning were shared.
- (Full ICCG update presentation is [here](#)).
- 13 proposals were received for the winterization grant with an envelope of 26 million.

#### 2. Presentation on NFI Pipeline - IOM

- IOM made presentation on the common pipeline, which is a central repository of Shelter and NFI supplies that is managed by the Cluster.
- The distribution to the beneficiary is the responsibility of the Shelter/NFI Sector partners, which access the supplies after the endorsement of the Sector Coordination Team. In order to be eligible to access the S/NFI pipeline, partners have to sign the Distribution Agreement with IOM. (full presentation, including details of use and FAQs is [here](#))
- A question was asked about what form the required needs assessment should take and what is the level of assessment (e.g., if a comprehensive household key informant interview is needed). IOM responded that the requirements are determined by the cluster and there are discussions to use standardized needs assessment tools used by the SNFI cluster. The supplies will only be released when the SNFI cluster endorses the supplies distribution process.
- Darren (PIN) asked if it is still necessary to report by individual or collective centre and the response was that this is based on each distribution done and that the unit of measure is individual or household.

**Gaps by key activities:** as of 27<sup>th</sup> July 2022.

#### 4. Damage Assessment using Remote Sensing

- Maksym Matsala/IMPACT Initiatives made a presentation on findings of infrastructure damage assessment conducted using remote sensing in northwest Kiev, (Full presentation is here)
- Sytske Claassen/SNFI National Cluster Coordinator asked if there are any timeframes for assessment in Kharkiv and Maksym noted that district-level assessments will be done but cannot give definite time period.
- Ernesto Bafile/TDH Italy noted that it is important to conduct in-depth assessments and to know if owners of houses and apartments are also doing repairs by themselves in preparation for winter.

#### 5. Sub-national Cluster updates

##### Dnipro

- There was an OCHA mission to Kharkiv which included partners and clusters to start a bi-weekly coordination meeting. Heating solutions was one of the key issues raised by partners.
- Discussions were also held on the expected movement of people from Donesk. Around 30% of the population is expected to move.
- Link to subscribe to TWiGs is [here](#).

##### Vynnitsia

#### 6. Updates from TWiGs

- Dates for next week's TWiGs will be confirmed.

## 7. AOB

- Next week, there will be a presentation from the meeting on targeting in terms of vulnerability criteria.
