Information management software for humanitarian and development operations

Everything you need for your data collection and reporting needs. No-code relational database builder. Integrated analysis tools and advanced user management capabilities.

ActivityInfo is perfect for

- Case Management
- Monitoring and Evaluation
- Multi-partner reporting

Why?

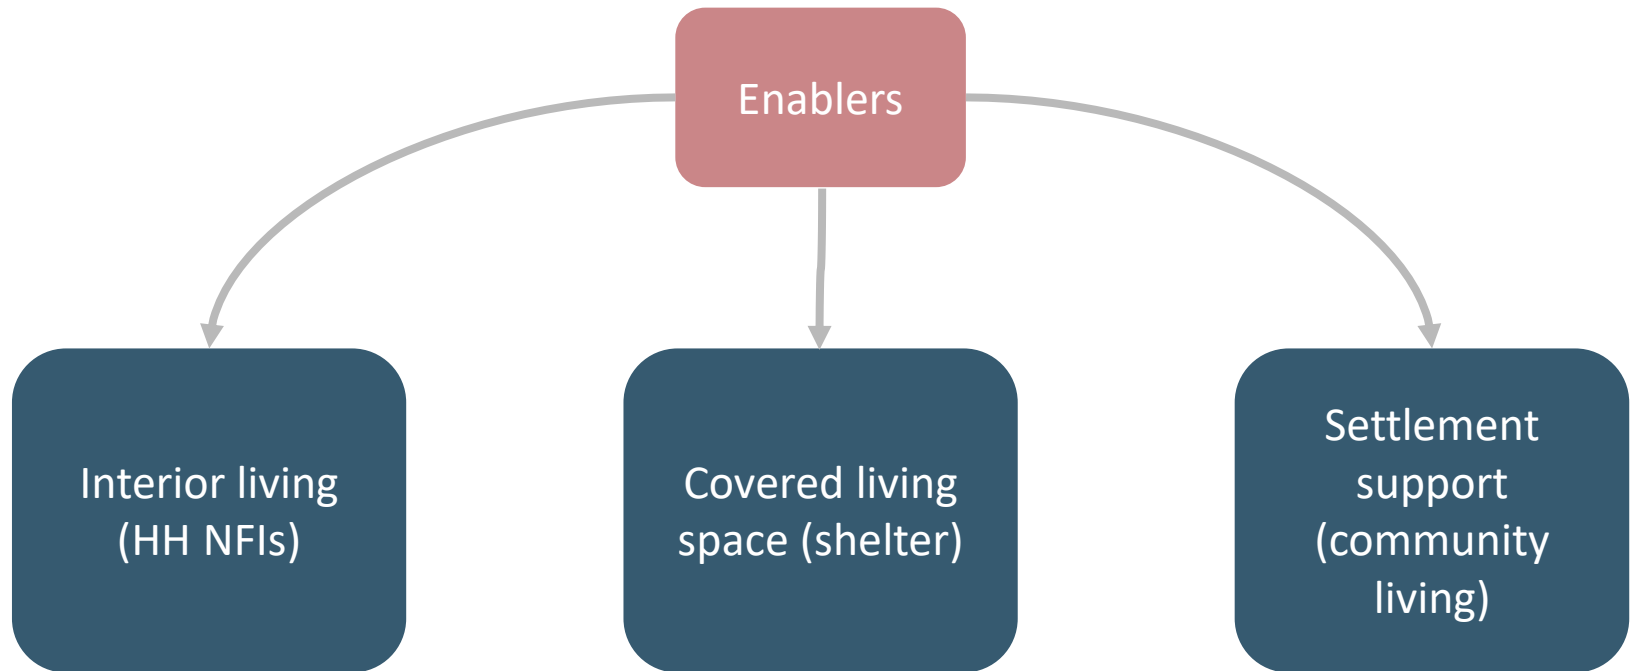

- ActivityInfo is replacing the current 3Ws
 - This 3Ws form is accessible through this Kobo form:
<https://ee.humanitarianresponse.info/x/J8ULy2qM>
 - This was set up as an initial monitoring tool but to be replaced with a more robust system
- Benefits ActivityInfo:
 - Data quality and accuracy → better response monitoring and planning
 - Automation and efficiency

Why?

Why now?

- Needs and response monitoring report
- This data will inform the report
 - Your work should be represented in the report
