**Critical prioritization:** Shelter/COCMNF Cluster district prioritization have been developed on July 1, 2013 based on the following sources:

- The shelter assessment
- UNHCR's IDP and returnee population statistics report as of May 31, 2013 (distal level)
- Integrated reporting from Hajjah Statistics report as of May 31, 2013.
- Sa Sada IPS disaggregation report by district level.

The cluster has selected four indicators with specific criteria depending on the type of need being assigned for each indicator as follows:

- No. of persons in need for Shelter assistance (e.g. Emergency Shelter).
- Number of individuals requiring food assistance (e.g. Food parcels and rations etc.).
- Number of concerns individuals with shelter needs <500 "Poor Situation", 500 – 2000 "Serious Situation", and >2000 "Critical Situation". If the indicator reported the presence of needs in the area "Yes" equals "Serious Situation".
- No. of persons in need for NFIs. The indicator criteria concerns individuals with <500 "Poor Situation", 500 – 2000 "Serious Situation", and >2000 "Critical Situation". If the assessment reported the presence of needs in the area "Yes" equals "Serious Situation".
- Number of individuals who are internally/displaced camps. The indicator criteria concerns IDPs <500 "Poor Situation", 500 – 2000 "Serious Situation", and >2000 "Critical Situation".

If the indicator reported the presence of needs in the area "Yes" equals "Serious Situation".

Each district is given a composite score from 0 to 4 based on evidence collected for each indicator in the field. Districts have been selected based on the four indicators to represent the district priority.

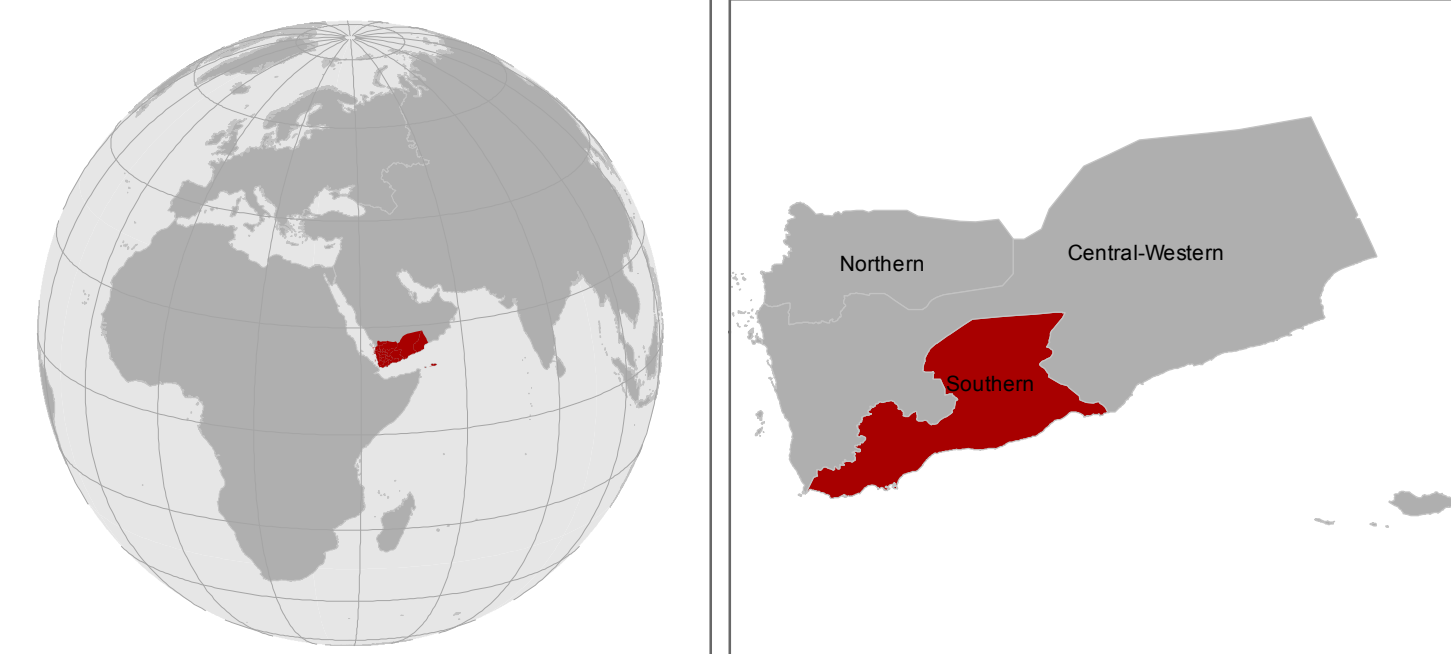

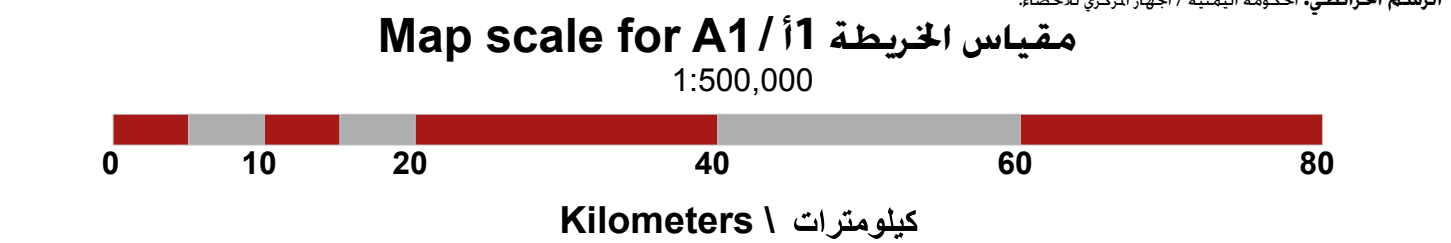

Districts with no data represent locations where no reliable information and no data have been collected.
