

Gaza Baytna Neighborhoods: *First Prototype*

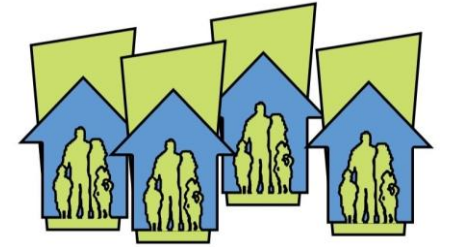

Mass Destruction

Tons of Rubble

Around 2 Million Palestinians Stay in fragile Tents and Shelters

Rebuilding Alliance's goals focus on family-centered and neighborhood-centered rehousing. Our plan for Gaza Baytna Neighborhoods includes the following activities:

0- UNMAS ordinance clearing

1- Rubble Removal

2- Job Creation for Unskilled Labor

3- Job Creation for skilled Labor

4- Improved, temporary, sustainable environmentally-friendly housing that lasts for many years

Rebuilding Alliance in exclusive partnership with MIDEAST Group, a Palestinian company based in Gaza City, drew upon their years of testing and experience to complete a first prototype of Gaza Baytna Neighborhoods on May 6, 2025 in Gaza City

**Thirty homes at a time, families rebuilding together—
shared walls, united hearts, and arches of hope**

Gaza Baytna Neighborhoods: *First Prototype*

- Completed in 14 days
- 10 unskilled laborers
- 8 skilled laborers
- 40 MT repurposed rubble (82.3%)
- 7.5 MT cement* (15.7%)
- Wired for electricity, indoor kitchen, and indoor plumbing

* **Note:** the cement available at that time in Gaza City was old cement stored for more than a year. With fresh, active cement the percentage of cement used will be 7% maximum

Update:

In September 2025, during the forced evacuation of Gaza City, a building nearby was destroyed in a massive blast.

The windows and doors were blasted out of our Gaza Baytna prototype and it was nicked by flying blocks and cement but the structure held firm.

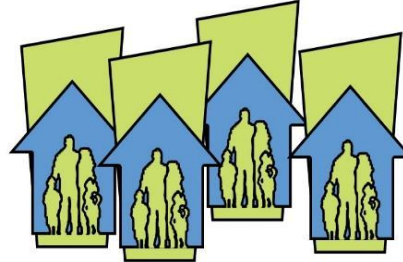

Next Steps:

Our goal is to construct 30 connected Gaza Baytna units in extended family compounds with full facilities and services plus family gardens around each unit and in courtyards

We seek stakeholders partners for investment and Gaza Baytna Neighborhood Program development
