

Agenda

1. Updates on Freddy + situation in Center/South Region
2. Updates from ICCG and HCT Maputo (08 and 09.03.2023)
3. Assessments + Distribution
4. OCHA's Available stocks and pipeline
5. OCHA's Priority Sectoral Activities-FreddyResponse
6. Shelter Kits + NFIs (HHs kits)
7. AOB

HRP 2023 - MOZAMBIQUE

24/02/2023

			Total funds	Funds % of the total funds	People in need	People Targeted	% PIN / P Target	People targeted % of the total targeted	Funds / People Target
	TOTAL		512,700,000		8,486,000	5,686,000	67%		90
CCCM	Coordination and Camp Management	IOM	11,200,000	2%	793,000	478,000	60%	8%	23
	Education	UNICEF	23,900,000	5%	547,000	342,000	63%	6%	70

	Coordination & Common Services	OCHA	9,400,000	2%					
	Logistics	WFP	10,700,000	2%					
	Refugees Response		19,500,000	4%	34,000	34,000	100%	1%	574

These are the resources included in the Humanitarian Response Plan 2023
For Shelter / NFIs, the large majority (almost 100%) are for North Region

1. Updates on Freddy + situation in Center/South Region

FREDDY 1 – ACTUAL DATA

Province	Affected People	People in Accommodation Centers	Priority Needs (INGD requests)				
			WASH	HEALTH	FS (livelihoods)	SHELTER/Nfis	EDU
Sofala	31,846	3,958 (14)					✓
Gaza	10,486	5,419 (16)	✓	✓		✓	
Inhambane	96,823	515 (7)	✓	✓	✓	✓	✓
Manica	13,800		✓		✓		
Tete	10,907		✓	✓			
Maputo (city+ province)	75,656 (32,230 city+ 43,426 province)	140 (3) city					
Total	239,518	9,892					

- The government estimates that **565,000 people are at-risk in Zambezia, Tete, Sofala and Nampula provinces**. This would come on top of more than 239 000 people affected by floods and tropical storm Freddy's first landfall in February in southern Mozambique and two million people in need of assistance in the North.
- Heavy rains, above 200mm/24h are expected in Zambezia, Sofala, Manica and Tete provinces.

PEOPLE AFFECTED BY FREDDY 1 OCHA SITREP 03/03/2023		PEOPLE	HH

WHAT THE SC PARTNERS ARE EXPERIENCING IN THE FIELD?

1. Updates on Freddy + situation in Center/South Region

Readiness: Freddy 2

Humanitarian:

- 1st line of response: WASH, Shelter/NFIs, Health, FSL
- 2nd line of response: all other clusters as needs unfold
- Clusters' presence mapped and contact lists (double check Zambezia, Nampula and Niassa)
- Provincial Needs Assessment Teams on stand-by
- Sectoral priority response activities identified as per ERP Plan/Operational Plan
- Mapping of stocks availability/gaps ongoing
- OCHA pre-deploying in Quelimane
- ICCG operational coordination: on alert
- Coverage of Niassa: Maputo or Cabo Delgado?

Zambezia Presence Map, Gombe 2022. Credit OCHA

2. Updates from ICCG and HCT Maputo (08 and 09.03.2023)

HC: FEW RESOURCES AVAILABLE FOR CENTER SOUTH

SOME POINTS TO HIGHLIGHT

1. FUNDS: MAIN ATTENTION IS ON ACs – NOT CLEAR VIEW ON WHAT IS HAPPENING IN REMOTE / NOT ACCESSIBLE

AREAS IDPs, People returning home,.....

2. OPTIMIZE RESOURCES, JOINT ACTIVITIES:

Some examples:

UN Habitat and UNICEF assessment of schools

JRP (Joint Response Program (IOM / UNICEF / WFP): joint distribution to avoid duplications and optimize logistics,

Teams,....

3. IMPORTANT TO WORK WITH LOCAL PARTNERS NETWORK

i.e. Red Cross, Caritas,...can mobilize many Volunteers

Local NGOs and Development Partners could have better access to remote communities,

4. INVOLVEMENT AND SUPPORT TO GOVT PARTNERS

(i.e. INGD, SDPI, DPOPHRH,.....)

1. OCHA: OVERVIEW

Flooded: 13516

Damaged/Destroyed: 13'878 in Gaza

Total damaged/Destroyed: 22'200

Overlapping crises: cholera, conflict, natural disasters

Issues in financing for natural disasters

- Presence in almost all Provinces
- Needs for fundings for Center/South, the large majority of funds are for the North

2. OCHA: WEATHER UPDATES

Wind speed 130 km/hour

350'000 people expected to be affected

Early warning is in place and prove to be pretty effective with Freddy 1

SC North Region (SC-IOM in Cabo Delgado): Niassa, Nampula, Cabo Delgado, Niassa

SC Center/South Region (SC-IFRC in Maputo): Maputo, Tete, Sofala, Zambezia

6'000'000 USD have been mobilized for Natural Disasters response

3. HC INPUTS

- Not clear green light for the Flash Appeal (which is taking time)
- Unclear Cluster capacity. In general there is a lack of funds and resources to cover the Center/South Region.
- Not recommended to use resources from the North for the Center/South Region.
- **Necessary to join resources and capacities**, with the involvement of local Partners, Development Partners.
- The Humanitarian Community need to advocate on the needs, the Donors community will see then how can support....

4. UPDATES FROM HCT

ECHO

- It seems that in some cases (Inhambane, Sofala) **the reported numbers of people affected are too low comparing to the reality in the field** (i.e. Houses flooded/Totally destroyed in Machanga)
- **Data from Province to National level to be reviewed to make sure these are consistent with the actual situation in the field**
- **ECHO activates alert, want to scale-up but with the actual data can't mobilize the funds.** This is the same concern raised by other Donors.

3. Assessments + Distribution

OCHA Sofala - Summary Cluster response info - Sofala

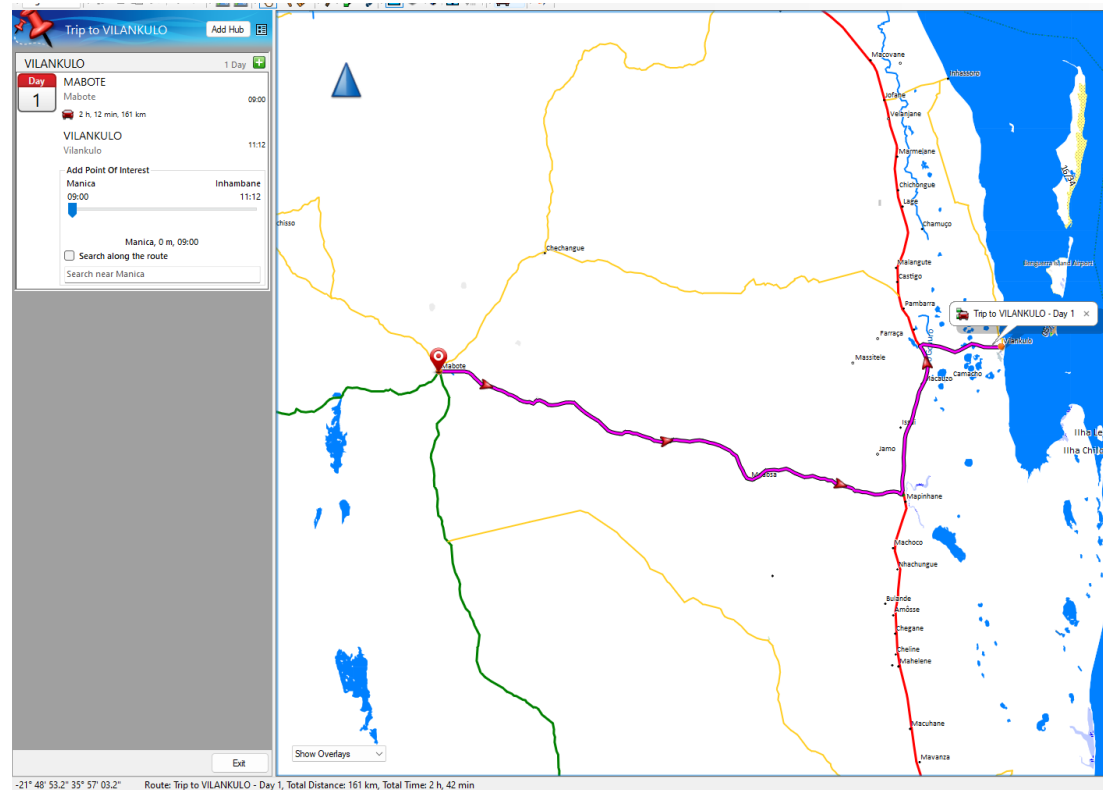

Figure	Data Source			
People Affected				
People in ACs				
Number of ACs				
People Injured				
Deaths				
Houses Affected				
Crops Affected (ha)				
Schools affected				
Water systems affected				
Health units affected				
Roads affected (km)				
Cholera cases				

AT THE MOMENT EACH PROVINCE USE OWN FORMATS TO REPORT

IMPORTANT THAT THE COLLECTED INFO ARE SHARED WITH MAPUTO IN ORDER TO HARMONIZE INFO, CONSOLIDATE DATA AND HAVE A GENERAL OVERVIEW (i.e. discussions with Donors, open discussion on scale-up,....)

ORGANISATION / OWNER	PROVINCE (drop-down)	DISTRICT (drop-down)	WAREHOUSE NAME/LOCATION TO BE STORED (drop-down)	ITEM CATEGORY	QUANTITY (enter number only)	CONTACT EMAIL / SOURCE

MAPUTO

[OCHA Stock Monitoring \(Google Spreadsheet\)](#)

THE TABLE REPRESENTS THE ACTUAL DATA AVAILABLE IN MAPUTO....IN MANY CASES NOT REFLECTING THE REALITY IN THE FIELD

IT IS IMPORTANT TO RECEIVE THE INFORMATION (DOESN'T MATTER THE FORMAT) ON STOCK AVAILABILITY TO SUPPORT THE INFORMATION

1. Need of harmonization of data: each Province is using own format.

2. Important to keep operation at Province level, but it is needed to have an overview of the situation at a larger scale.

To be discussed with OCHA

5. OCHA's Priority Sectoral Activities-FreddyResponse

Affected Population: 200,000 Coverage Period: 6 months	Funds Needed
FSL	\$28,569,094
WASH	\$8,269,000.00
Distribution of critical WASH supplies (WASH Hygiene Kits)	\$3,921,000.00
Water supply	\$2,472,000.00
Sanitation & Hygiene	\$1,826,000.00
Logistics	\$50,000.00
Health	\$3,000,000.00
Shelter/NFIs	\$8,330,000.00
Shelter	\$6,300,000.00
Shelter Emergency (basic + standard + upgrade), including toolkits - Target: 35'000 HHs	\$4,000,000
Shelter Early Recovery + Repair kits - Target	\$1,500,000
Tents - Target 2'000 HHs	\$800,000
NFIs Emergency kits (mosquito nets, blankets, mats, jerrycans, family kits, kitchen sets,...) for 30'000 HHs	\$1,650,000
Activate Local DRR Committees	\$100,000
IEC material on Shelter/NFIs Key Preparedness and good practices messaging (shelter/houses reinforcement advice and promotion Build Back Better principles).	\$100,000
Distribution and Technical assistance for construction (Teams + Logistics)	\$100,000
Cluster coordination (field travels, surge deployments, logistics) - lumpsum	\$80,000
Protection (incl. GBV and CP)	\$5,521,174.70
Nutrition	\$1,274,767.00
Education	\$3,113,500.00
Logistics	\$1,104,718.00
PSEA	\$56,000.00
CCCM	\$213,000.00
	\$51,201,253.70

1. Some Clusters evaluate the PiN at least 400'000 people (80'000 HHs)
2. This a 1st estimation of fundings needed, there will be discussions, adaptation....

5. OCHA's Priority Sectoral Activities-FreddyResponse

Sector		People in need method	People targeted method
FSL	Food Assistance	Latest IPC report (not published)	Maximum instructed (200,000) as PiN already double (400,000)
	Livelihoods	Latest IPC report (not published)	Maximum instructed (200,000) as PiN already double (400,000)

1. When possible start already to thing to the recovery phase:
i.e. tarpaulins with few materials can support the emergency shelter (lifespan 3-6 months) to upgrade to a structure with a lifespan of 6-12 months

7. AOB
