

The Shelter and Non-Food Items Cluster was launched in South Sudan in 2011 and acts as a coordinating mechanism of partner organizations working to provide life-saving household items and shelter materials to conflict and disaster affected people in South Sudan. Since the current conflict began in December 2013, Cluster partners have been working tirelessly to conduct flexible, timely and needs-based interventions for some of the most vulnerable and remote populations across the country. The Cluster continues to overcome severe logistics, security, access and resource constraint to reach those most affected by the violence and the lack of functioning markets in states like Unity, Jonglei and Upper Nile.

IOM leads the Cluster at the national level with the support of World Vision International as Co-Lead. IOM also manages the common pipeline which provides a reliable, cost-effective and steady stream of quality materials to partners for distribution to populations in need. In addition to providing stock for immediate distribution, the pipeline prepositions materials in strategic locations across the country to further facilitate rapid deployment of life saving items. Finally, IOM manages a mobile response team to act as provider of last resort for the Cluster and support with partner capacity-building as the need arises.

**Key figures**

**1,659,327**

Estimated internally displaced people (as of 3 Oct 2015)

**720,000**

To be assisted with NFI

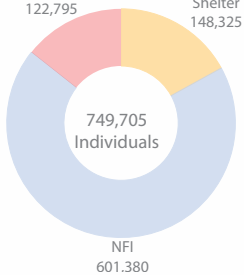

**152,500**

To be assisted with Shelter

**30,000**

Survival Kits to be delivered

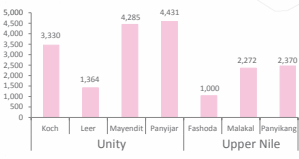

**Materials served with NFI and Shelter**

**Survival Kits**

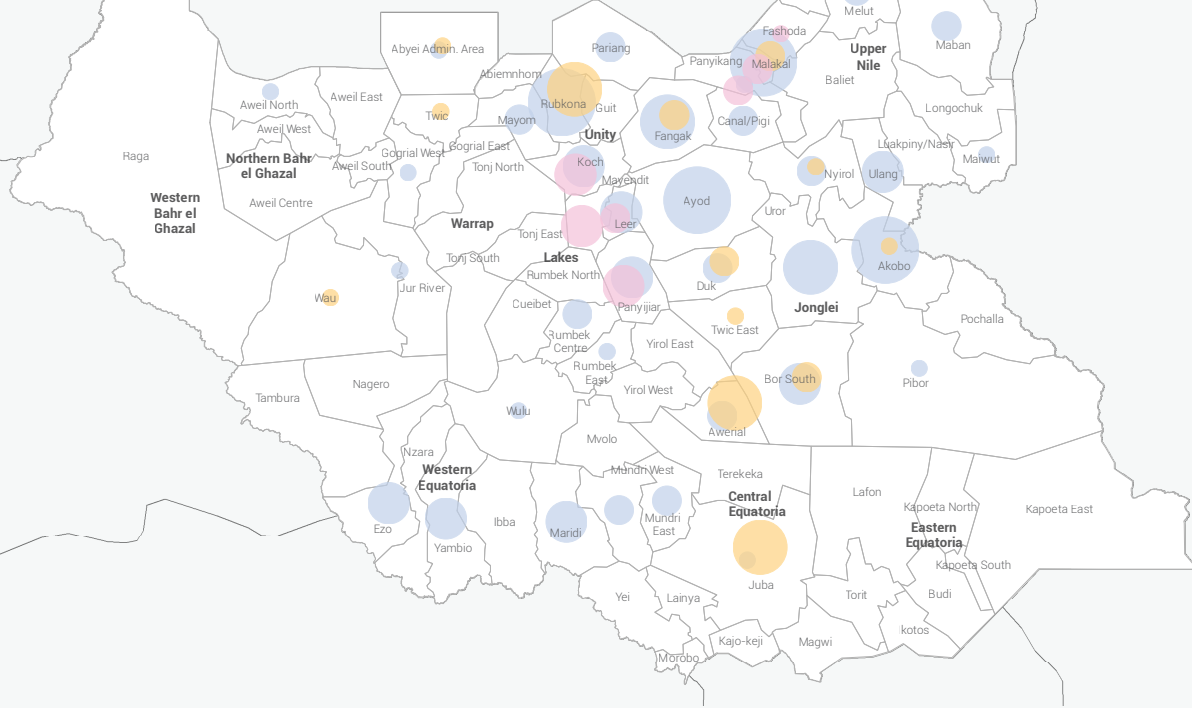

**19,052**

Survival Kits have been delivered to date

**Shelter - NFI Response in 2015**

● Shelter  
● NFI  
● Survival Kits operation

Thus far in 2015, Cluster Partners have served to 120,276 households with NFI and 29,665 households with shelter materials. These achievements represent 84% and 97% of the respective targets in the revised Cluster Response Plan for 2015.

IOM's frontline team together with FAO, UNICEF, WFP and the Logistics Cluster have transported, packed and coordinated the delivery of 19,052 survival kits to field locations where sustained and full NFI interventions are not feasible. Survival kits include a combination of the following items: 1/2 kitchen set; 2 mosquito nets; 2 collapsible jerry cans; 2 AquaTab sachets; oral rehydration salts (ORS); fishing kit; 2 packets of fast-growing vegetable seeds; 4 BP5 packets or 18 High Energy Biscuits; an IOM blue storage bag.
