

SHELTER PROJECTS:

Case studies with GBV risk reduction and/or gender mainstreaming components

Shelter Projects publication started 13 years ago and contains a total repository of nearly 300 project case studies and response overviews, from programs implemented by over 60 organizations in over 70 countries. The publication provides insights drawn from hundreds of projects that have provided shelter and settlements assistance to people affected by crises. All editions of Shelter Projects are available at shelterprojects.org.
