

AFGHANISTAN: 2020/21 INTER-CLUSTER WINTERISATION STRATEGY

AUGUST 2020

AFFECTED POPULATION

4.8M

people in need of winterisation response

2.5M

people to be reached with the winterisation response

FUNDING STATUS

Required

\$136.9M

Available

\$46.7M

Gap

\$90.2M

KEY MESSAGES

1. Winterisation provides **life-saving support** to the most vulnerable individuals, protecting them from harsh weather conditions and preventing mortalities, especially for children and the elderly.
2. This strategy utilises an **integrated approach** and **enhanced coordination** between clusters to address cross-cutting needs brought on by the harsh winter season.
3. **Early identification of funds** will enable partners to plan ahead, procure and preposition winter items. This is crucial in light of possible delays due to COVID-19.
4. A **timely winterization response** will alleviate the adoption of negative coping mechanisms, lessen the occurrence of respiratory infections, U-5 mortalities, hypothermia and in some cases even death, especially among the elderly, women and children.

EDUCATION IN EMERGENCIES WORKING GROUP

\$4.8M

\$176,705

\$4.6M

Planned reach (people): **300,000**

Current capacity to reach (people): **0**

Response package: Heating for classrooms, winter clothes for school-aged children.

EMERGENCY SHELTER/ NON-FOOD ITEMS CLUSTER

\$57.5M

\$8.6M

\$49M

Planned reach (people): **1,359,792**

Current capacity to reach (people): **160,755**

Response package: Blankets, heaters and fuel support, winter clothes.

As required: Shelter repair/ upgrade, rental assistance, emergency shelter winterisation kit.

FOOD SECURITY CLUSTER

\$54.45M

\$34.47M

\$20M

Planned reach (people): **1,694,456**

Current capacity to reach (people): **1,073,832**

Response package: 4 months food assistance, livestock protection assistance.

HEALTH CLUSTER

\$6M

\$1.5M

\$4.5M

Planned reach (people): **2,500,000**

Current capacity to reach (people): **600,000**

Response package: Emergency health services through mobile and static health clinics.

As required: IEKH supplementary kits, respiratory infection medicines.

NUTRITION CLUSTER

\$3.37M

\$2M

\$1.3M

Planned reach (people): **63,603**

Current capacity to reach (people): **38,603**

Response package: Treatment of SAM and MAM cases, winter clothing for Pregnant and Lactating Women (PLWs).

PROTECTION CLUSTER

\$6.9M

\$0

\$6.9M

Planned reach (people): **402,564**

Current capacity to reach (people): **0**

Response package: Referral of protection cases, GBV screening and referral, dignity kit distribution, identification of children with specific needs (PSN), winterization kit for children with specific needs.

WASH CLUSTER

\$3.9M

\$0

\$3.9M

Planned reach (people): **100,000**

Current capacity to reach (people): **0**

Response package: WASH package, WASH NFI, family hygiene kit.

As required: Safe drinking water through trucking or water treatment kits, emergency latrines and bathing spaces.

AFGHANISTAN: 2020/21 INTER-CLUSTER WINTERISATION STRATEGY

AUGUST 2020

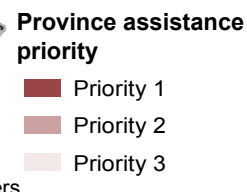

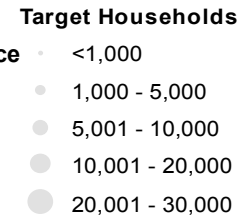

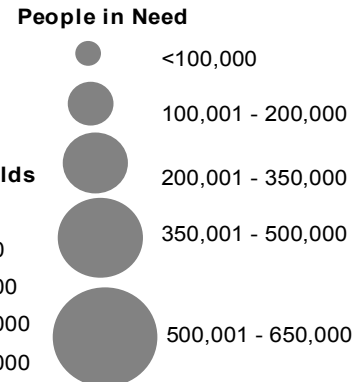

This map indicates provinces that are likely to be adversely affected during the upcoming winter season and the number of people in need of immediate winter assistance. The needs per province are based on:

- i) severity of winter in Afghanistan based on scale of snow, ice, temperature and precipitation across all provinces for period for Dec, Jan, Feb, Mar 2020-2021,
- ii) the extent to which populations are exposed to the elements due to poor access to basic services including shelter, non-food items, blankets and winter clothing.

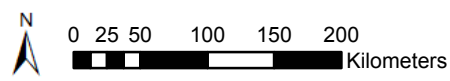

Region	Province	People in Need	Target Households	Priority
