NEEDS ANALYSIS

As per the IOM-led DTM report, **1.6 million IDPs** and **4.3 million Returnees** have been identified across the country, from January 2014 to 31st August 2019.

The number of IDPs continues to decrease (from 2.6 million as of Dec.2017 to 1.6 million as of Jul.2019); while the numbers of returnees has increased (from 3.2 million, end of Dec.2017 to 4.3 million, end of Aug.2019).

- **32%** of the 1.6 million IDPs are in camps, while **60%** are currently in private settings (in rented accommodation or with host families); **8%** remain in critical shelter arrangements (unfinished/abandoned building; school/religious buildings and informal settlements).
- **95%** of the returnees are in their habitual residence, **2%** in Private Settings while **3%** live in critical shelter arrangement such as informal settlements, unfinished and abandoned buildings, schools, religious structures.

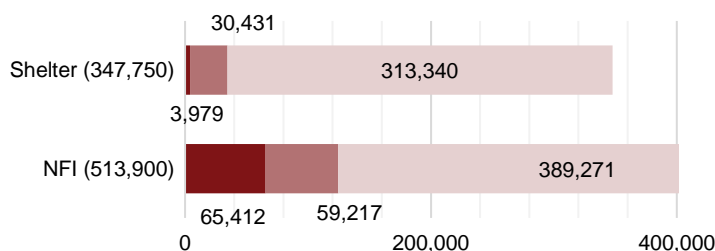

CURRENT CLUSTER INTERVENTIONS (1st Jan. – 31st Aug. 2019)

- Out of the overall SNFI Cluster target of 861,650 individuals, **124,629** people have been assisted with **NFI kits**; **34,410 people** have benefited from **shelter interventions**. The coverage for NFI kits stands at **14%** of the cluster target; and the coverage for shelter stands at **4%** of the cluster target. From the total number of beneficiaries reached:
 - **47,624** people living in camps and informal settlements have been reached with NFI kits; **2,774 people** have been provided with emergency shelter interventions.
 - **36,056** returnees have been reached with NFI kits; **28,251 people** were assisted with either emergency repairs of war damaged houses, or provided with sealing-off kits.

GAPS / Constraints and Key Critical Issues

- Through a second IHF allocation, SNFI Cluster partners will receive a total of 3.3 MUSD to meet the needs of more than 45,000 individuals in priority areas that so far have witnessed low or no coverage in Anbar, Dahuk, Kirkuk and Salah al-Din. Priority will be given to partners which, based on FTS reporting, have not yet received any funds in 2019 under the HRP. This is the case 7 SNFI Cluster partners of which 4 will be able to benefit from the second allocation.
- The Ministry of Migration and Displacement (MoMD) has announced their capacity to replace some of those tents which wear and tear make them a substandard shelter, in some of the largest IDP camps in Iraq. While this is an excellent news, the program shall be completed before the rainy season, expected to start early October.
