Map

- Partners have resources to assist 39,204 HHs in 15 Governorates, 43 Districts
- Implementation progress: 7,000 HHs (4,567 HHs has been assisted up to Dec + 2,230 families assisted in the last two weeks).

- Updates on MCLA:
 - a) Data collection still ongoing and expected to be completed by end of January.
 - b) Data cleaning and reporting may take up to the end of February.
 - c) The data should be available to clusters in March if data collection and cleaning completed on time.
- Population figures still under negotiation. There is a possibility to use last year's figures if no agreement reached.
- Donor Conference is planned between Feb and Mar.
- Is it feasible to go with scenario b of the Shelter Cluster HNO methodology?

Shelter related Non-Food Items	\$
Cooking fuel (Gas, firewood, charcoal)	\$8
Clothing	\$6
Lighting	\$8
Shelter/Housing	\$
A portion of the rental payment (30%* of the amount of renting an accommodation providing basic shelter needs) + shelter maintenance	\$38
Total	\$60

- The above proposed composition is a recurrent costs.
- It is planned to be discussed in the next Cash and Market Working Group

What is the CCPM?

- A self-assessment of cluster performance against the 6 core cluster functions and Accountability to Affected Populations (AAP):
 1. support service delivery
 2. inform the HC/HCT's strategic decision-making
 3. strategy development
 4. monitor and evaluate performance
 5. capacity building in preparedness and contingency planning.
 6. Advocacy
 7. + section on Accountability to Affected Populations
- A country-led process, supported by Global Clusters and OCHA

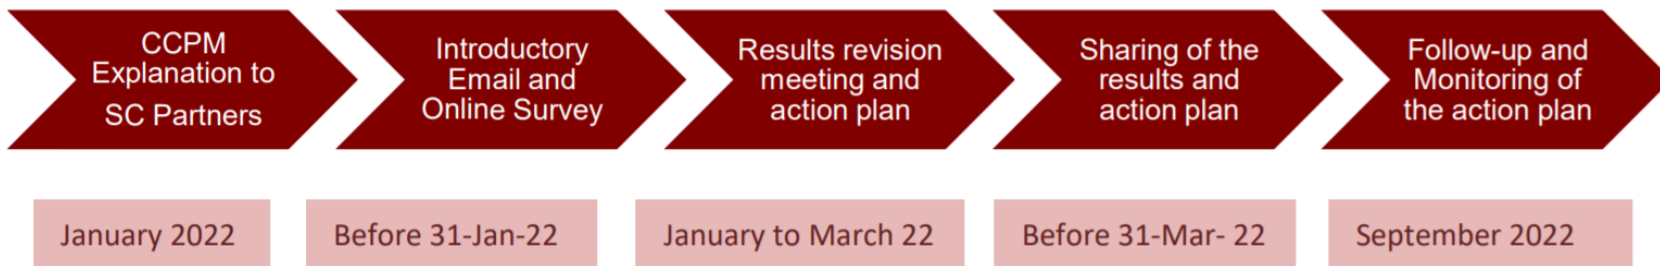

Why do we monitor Cluster coordination performance?

- Ensure efficient and effective coordination
- Take stock of what functional areas work well and what areas need improvement
- Raise awareness of support needed from the HC/HCT, cluster lead agencies, global Clusters or Cluster partners
- Opportunity for self-reflection
- Strengthening transparency and partnership within a Cluster
- Show the added value and justify the costs of coordination

The CCPM does NOT...

- Monitor response (service delivery)
- Evaluate individual partners or coordinators
- Evaluate if/when Clusters should be deactivated, merged etc. (Review of the Cluster architecture)
- Exclude usage of other tools with the same purpose

CCPM in steps
