

Prioritization of shelter/NFI needs

End of September 2017

Life-saving nature of shelter/NFI assistance

Shelter is a basic human need and a critical determinant for survival and coping in the majority of crises. Beyond survival, shelter and core relief items are necessary to provide security and ensure personal safety and protection, and to promote resistance to ill-health and disease.

Response activities

As of 30 September 2017:

- **60,492 full emergency shelter & NFI kits** distributed to displaced households in 6 regions, additionally to cash grants and vouchers to **982** households.
- **900** supplementary kits presently being distributed or already funded and procured for distributions.
- **22,600 kits** in stock & pipe-line.
- **TOTAL = 84,974 full kits or equivalent in cash and vouchers**

Outstanding needs

The DTM round 6 figures collected in 7 regions, the 2017 Belg assessments conducted in 4 regions, requests received from the authorities notably for the needs induced by the conflict along the border between Oromia and Somali regions, the needs induced by the 2017 kiremt season as shared by the flood task force and assessments conducted by cluster members revealed that the total of households in need of shelter/NFI assistance is **231,240 HHs**.

Prioritization criteria

As agreed upon among cluster members on 31 of August 2017, Shelter/NFI assistance for people **who are currently in need of assistance** will primarily be directed to:

- Newly displaced in 2017,
- IDPs who have not had access to shelter/NFI assistance, durable solutions or coping mechanisms and
- Populations affected by floods, droughts and conflicts.

300 woredas hosting IDPs classified as priority 1 (in 9 regions)

145,193 IDP households / 798,562 IDP / **NEED:** 145,000 full kits or equivalent in HH cash grants & vouchers = 20.3 MUSD

120 woredas hosting IDPs classified as priority 2 (in 7 regions)

86,047 IDP households / 473,259 IDPs / **NEED:** 86,000 full kits or equivalent in HH cash grants & vouchers = 12.04 MUSD

Map of zones classification between P1 and P2 woredas – as of end of September 2017

Legend

Priority 1 woredas: red

Priority 2 woredas: green

Annex: List of priority 1 and 2 woredas
