

### Household Kit Package (10,000 NPRs / 100 USD)

The following household kit package is based on the Nepal Shelter Cluster Contingency Plan<sup>1</sup> and its contents have been agreed upon by the shelter cluster lead DUDBC, co-lead IFRC, and the Shelter Cluster Strategic Advisory Group (SAG).

\*\*Note prices are indicative estimates and many are based on bulk / pre-earthquake prices:

\*Note the Shelter Cluster advocates for 2 tarpaulins per family. This is noted as optimum and is recommended, however, in some instances it is understood that because of pressure of operations and need for coverage this may have to reduce to 1 per household as an emergency measure. In such situations agencies are recommended to follow up with the distribution of a second tarp as stock becomes available.

\*\* This clothing list is flexible and cash is the recommended modality to support provision of clothes in order to allow households to choose the size and type of clothes most appropriate for them.

\*\*\*Plastic sheeting was also discussed for partitions.

\*\*\*\* Note up to 5 blankets per household may be required. Priority to high altitude areas.
