

**HIGHLIGHTS OF THE MONTH**

- ✓ DRD continues to refill ponds dewatered during cyclone Komen.
- ✓ Increasing numbers of empty ponds are noted in villages, raising immediate concerns for the dry season/El Nino
- ✓ Options for sludge management for Sittwe camps are under investigation.

- Limitations of the analysis:**
- ✓ Lack of data on sanitation for villages where activities recently started
  - ✓ Access to water does not report closely enough about safe drinking water
  - ✓ Access to Pond water is not reflected
