Välkomna alla IPSC gevärsskyttar!

Vi hälsar alla skyttar, funktionärer och sponsorer välkomna till **2022 års svenska mästerskap i IPSC Gevär** och Malmö Rifle Championship 2022.

MSG – Malmö Skyttegille, en av Sveriges största skytteföreningar står återigen som arrangör för årets svenska mästerskap. Skjutbanan "Spillepengen" ligger bara 7 km från centrala Malmö vilket ger alla besökare nära till boende, mat och andra attraktioner.

Den här matchen hade inte varit möjlig utan hjälp av otaliga frivilliga, funktionärer och sponsorer som har förvandlat denna bana till en samling stationer som kommer att utmana skyttar på alla nivåer. Ta dig tid att tacka dem för deras hårda arbete som gör det möjligt för dig att njuta av två dagars skjutning.

Matchen avslutas med prisutdelning och det kommer att finnas massor av fina priser från våra sponsorer. Det kommer också att hållas en utlottning och alla tävlande som genomfört matchen har lika stor chans att vinna några riktigt fina produkter! Observera att alla utlottningspriser måste hämtas personligen vid ceremonin.

SÄKERHET!

För att maximera skjututmaningen med bibehållen säkerhet har vi begränsat tillträdet på vissa delar av skjutbanan. Respektera avspärrningar och följ alltid skyltningen.

Skyddsglasögon och hörselskydd skall bäras av ALLA när man är i närheten av stationerna där det skjuts.

AMMUNITION

Spårjussammunion, samt ammunition med stål kärneprojektil (5B och liknande) är inte tillåten.

FLASH-TARGETS

Dessa plåt mål är konstruerade att svänga vid träff varpå en orange markeringstavla blir synlig ovanför plåten. Range officer på station kommer att skrika "Hit" direkt vid träff. Skytten avgör själv om han vill skjuta vidare innan RO har hunnit markera, dock är det alltid RO bedömning som ligger till grund för resultatet.

MAX SKJUTTID PÅ STATION

För att förhindra orimligt lång skjuttid pga. svårigheter att träffa plåtmål på längre håll kommer max skjuttid att tillämpas på ett antal stationer. Det innebär att när den stipulerade tiden har löpt ut så stoppas skytten och stationen markeras som den står vid stopp tillfället. Max skjuttid framgår av stationsbeskrivningarna.

TESTSKJUTNING

Vid station 15 (kronografen) finns möjlighet att testskjuta vapen vid eventuella tekniska problem och även passa på att testskjuta våra sponsorerers produkter.

Ingen skjutning får ske på egen hand utan ansvarig RO skall finnas på plats och normala IPSC säkerhetsregler gäller.

MATCH I MATCHEN

Bästa skytt totalt på de tre stationer som Schmeisser sponsrar vinner en komplett Schmeisser AR-15 M5FL i brons med ett Falke S sikte (värde 32tkr)! Resultatet beräknas på erhållen % i "Combined" för de tre stationerna 3, 4 och 5.

PRISUTDELNING

Prisutdelningen i Svenska Mästerskapet gäller endast skyttar som är registrerade och bosatta i Sverige.

Priserna består i Förbundets medaljer och utdelas i erkända divisioner, kategorier samt lag.

Prisutdelningen i MRC - Malmö Rifle Championship inkluderar samtliga skyttar som genomfört matchen oavsett land.

Priser delas endast ut i erkända divisioner och kategorier.

Priserna består av IPSC President medaljer, MRC medaljer och en mängd varor från alla våra sponsorer.

UTLOTTNING

Utöver den vanliga prisutdelningen så kommer det även att lottas ut många värdefulla produkter. Alla tävlande som genomfört matchen har lika stor chans att vinna!

Observera att alla utlottningspriser måste hämtas personligen vid ceremonin.
