

BLACKSMITH SRA 2026

S:t Eskils Skyttar

Match description

Introduction

Blacksmith SRA 2026 is the second open invitation SRA-match in Sweden. The first match was held last year in September at a range outside Skinnskatteberg. Organized by the club Försvarsutbildarna Västmanlands skytteförening.

As this is our first larger SRA competition, we will gladly get some feedback about improvements. Feedback can be sent to styrelsen@steskils.se and will be reviewed during the match organizations after action review.

We hope that this match will help SRA shooting to grow in Sweden as we still are in the beginning of our journey.

Match on SSI

The competition is open for everyone with an SRA-license from primarily Sweden and Finland.

Registration will open Jan. 31, 2026, 8 pm.

Tactical situation

The match is based on a scenario in which the enemy has crossed into NATO territory in northern Europe and the Baltic states.

You are serving as a light infantryman in the platoon AQ. Your platoon is tasked with patrolling the outskirts of a nearby airbase, defending key terrain and harassing the enemy with ambushes and raids. The terrain is mainly forest, dense with pine and spruce trees, forcing the light mechanized enemy to use roads for fast maneuvering. The enemy is heavily reliant on the use of drones. With short shooting distances and some built up village areas you are well off with your carbine and a pistol for self-defense. A shotgun for drones might come in handy...

Stages

Final stage descriptions will be provided 1-2 weeks before the match. Notice of this will be provided through SSI. Preliminary stage descriptions are available in SSI; however, these may be subject to change.

Stage weapon

At stage 7. We will provide the competitor with a stage gun (Benelli M4 AI Drone Guardian) and ammunition. You are not allowed to use your own shotgun or ammunition.
