

General Product Safety Regulation (GPSR) – Safety Information

This document provides general safety information in compliance with the UK and EU General Product Safety Regulation (GPSR) for a bicycle part intended for consumer use. It is essential that the product is used only as intended and in accordance with the following guidelines to ensure rider safety.

✓ Intended Use

This bike part is designed exclusively for use with bicycles. It must be installed and used following the manufacturer's instructions. It is not suitable for motorcycles, electric scooters, or any other applications.

✓ Safety Precautions

- Ensure the bike part is installed by a competent person or qualified bicycle mechanic.
- Check that all bolts, screws, and fasteners are tightened before every ride.
- Do not use the product if it shows visible signs of damage, cracks, or excessive wear.
- Inspect regularly for corrosion, loose parts, or material fatigue.
- Use only original or approved spare parts when replacing components.
- Keep out of reach of children when not installed on a bicycle.
- Do not modify the product in any way, as this may compromise safety.

✓ Maintenance & Care

Regular maintenance will extend the lifespan of the product and ensure safety. Clean the part with mild soap and water only. Avoid the use of aggressive chemicals or solvents. Lubricate moving parts if applicable, and check torque specifications where relevant.

✓ Environmental & Disposal Information

At the end of its service life, dispose of the product responsibly. Recycle materials where facilities exist, in accordance with local waste management regulations. Do not dispose of with household waste if recycling options are available.

✓ Manufacturer Contact Information

For further information, safety advice, or to report an incident, please contact the manufacturer or authorized distributor. Always quote the product name, model, and batch number (if available).
