

Aluminium Foil Tape

DESCRIPTION

FIREFLY® Aluminium Foil Tape is comprised of a fire-retardant acrylic adhesive with a low emissivity aluminium foil coating. 60µm thick supplied in 75mm x 45m rolls.

USE AREAS

FIREFLY® Aluminium Foil Tape is designed to seal laps and joints in conjunction with **FIREFLY® Membrane WP** externally to create a weather resistant seal and **FIREFLY® Membrane NB** internally to create an air and vapour resistant seal. **FIREFLY® Aluminium Foil Tape** can also be used as a repair tape for tears up to 25mm.

KEY BENEFITS

- Fire tested as a system with **FIREFLY® Membrane WP** and **NB**
- Easily applied with PE coated release liner
- High take adhesive
- High temperature peel adhesion
- Temperature resistance up to 120°C

TITLE	FIREFLY® Aluminium Foil Tape
RELEASE LINER	White PE-Coated Silicone Release Paper
THICKNESS	60µm Aluminium Foil 30µm
PEEL ADHESION 180 °c	10 to 25N/25MM
ADHESIVE TO LINER	1 to 25N/25MM
FINISH / COLOUR	Silver
TEMPRESISTANCE	-30+120°C
DIMENSIONS	75mm x 45m
PACKAGING	16 Per box
PRODUCT CODES	Aluminium Foil Tape
