

TRAINING DAYS

THE LATEST EDUCATIONAL INFORMATION ON TRAINING COURSES, DISTANCE LEARNING, COMPANY TRAINING DAYS, SEMINARS AND WORKSHOPS CURRENTLY AVAILABLE. THIS SECTION WILL ALSO INCLUDE COMPETITIONS, AND STUDENT OFFERS AMONG OTHER EXCITING OPPORTUNITIES

COURSES AT THE 5TH ICGSM

From the 22 to the 25 May, delegates from around the world will come to Rome, Italy, for the 5th International Course on Geotechnical and Structural Monitoring (IcGSM). On 21 May, there will be held a series of six masterclasses on the most common monitoring systems:

- Piezometers with Martin Clegg and Chris Spalton.
- Inclinometers with Giorgio Pezzetti.
- Extensometers with Daniel Naterop.
- Total Stations with Werner Lienhart.
- Vibration Monitoring with Vincent Le Borgne.
- Terrestrial Radar with Paolo Mazzanti.

Each class will cover the following main topics: installation, data acquisition, data processing, and tricks and tips from everyday experience. They will be open

to IcGSM delegates, as well as those not attending.

Registration for one class: €150; additional classes up to a maximum of three: €100 (excluding VAT)
For more information and to register, visit: www.geotechnicalmonitoring.eu/
master-classes by the 4 May

TEACHMEGIS TO RELEASE GISP TEST PREP COURSE

TeachMeGIS will be releasing its GIS Professional (GISP) Test Prep course this spring. The organisation thinks it will help qualified, experienced GIS professionals to figure out where their gaps of knowledge might be before taking the test and help them focus their test preparation efforts in the areas covered by the test where they have the least experience. For more information, email: info@TeachMeGIS.com

GEOFORALL RESOURCES

GeoForAll has requested that people share and use the following free resources for teaching and training.
 For teaching: www.osgeo.org/initiatives/geo-for-all/in-your-classroom/
 For research: www.osgeo.org/initiatives/geo-for-all/in-your-research/
 For class projects: www.osgeo.org/initiatives/geo-for-all/for-your-class-project/

DISTANCE LEARNING GIS PROGRAMMES

UNIGIS UK

Study for a postgraduate qualification in GIS by online distance learning

UNIGIS UK has been at the forefront of GIS education for over 25 years, providing online distance learning-based postgraduate education and training in Geographical Information Systems and Science. Our part-time programmes support the personal and career development of GI professionals and those seeking to enter the GI industry. We support you with personal tutors, online resources and web collaboration software for surgeries and tutorials. There are no examinations, our courses are delivered through our bespoke VLE, and are 100% coursework assessed.

"The material covered in this course is relevant and up to date. I landed the GIS job I always wished for only 2 months after completing the UNIGIS programme".

MSc GIS Dissertation Student

unigis@mmu.ac.uk
 +44 (0) 161 247 1581

- part-time online, distance learning
- flexible entry requirements
- 3 years Masters programme, with exit qualification options available following completion of year one (PgC), and year two (PgD)
- specialist pathways in GIS, Applied GIS, and GI Technologies
- degrees awarded either by Manchester Metropolitan University or the University of Salford
- annual intake in September
- competitive fees with instalment options
- key textbook and industry standard software included
