

## **Anleitung für 'Eco Clean 2in1' in Englisch**

DETERGENT SPECIALLY FORMULATED FOR VACUUM FLOOR CLEANERS AND ROBOTS Thanks to its formula with plant-based ethanol and WITHOUT GMOs, phosphorus-based components, and EDTA, it deeply cleans all surfaces while respecting the environment. Effective on wood floors, tiles, laminates, and more, it leaves a fresh and delicate fragrance, ensuring a sparkling and safe home for the whole family.

DIRECTIONS FOR USE: For devices that vacuum and wash simultaneously, add 1 capful of product (approx. 30 ml) per liter of water into the clean water tank. For deep or intensive cleaning, add 2 capfuls. Fill the tank with water up to the maximum indicated level. Always refer to the appliance manufacturer's instructions. If unsure about the surface type, test on a hidden corner first. The product may remove wax or other treatments applied to surfaces.
