## ELSA och SAM

ELSA och SAM is a Swedish educational brand founded in 2019 by Johanna Abdo. The brand was created when our founder couldn't find a superhero t-shirt, with a black superhero for her kids. So she decided to create a change in market.

Johanna Abdo CEO and Founder

We develop fun and educational products for children, always with diversity in mind. We believe that all kids have the right to see that we're all different, but equal. In our products you'll find different ethnicities, function variations and body shapes represented.

Sustainability is of course important, all paper-based products are FSC labelled and produced in Europe. Most of our products are also designed to be adaptable for kids in different ages, to prolong the fun. The products are approved and in compliance with EU safety legislation.

Our customers are leading retailers in the Nordic market providing educational supplies to families, Schools and preschools:

**ABC with ELSA och SAM** is a game where kids can learn letters in a playful way.

The 26 letters from the Latin alphabet are represented plus Å, Ä and Ö. Two plain cards are included to add a specific letter outside the included letters.

Uppercase and lowercase letters are separated, vowels and consonants are split in two different colours.

By separating uppercase and lowercase letters, kids can practice matching them. The pairs can also be used as a Memory game.

You can practise reading and spelling by putting words together with the letter cards.

10 colourful illustrations are included, which can be played with in many different ways.

You can look for a word starting with a specific letter, or spell words you find in the picture using the letter cards.
