

Interventional Radiology On-Call Network

Covering Frimley Park, Wexham Park, Ashford & St Peter's
and Hampshire Hospitals

1. Discuss early

- Refer to the IR Consultant on-call via the Frimley Park switchboard
- The referral must be made by a Consultant

2. Resuscitate fully

- Ensure plans are in place for full resuscitation which may include, reversal of anticoagulation, activation of the major haemorrhage protocol, ITU input for arterial haemorrhage

3. Arrange transfer

- The patient must be accepted by a receiving team prior to transfer (i.e. Surgery / Medicine / ITU) for an IR procedure
- Complete the IR emergency transfer checklist found on your hospital intranet*
