Happy with the purchase. The wood frame was not straight so had to screw it to the wall but i love the painting regardless. If your going to take it know the frame wont sit flat and you will have to nail it so if your ok with that its perfect.

I got the incorrect product delivered and it has been more than 2 months they keep making one or the other excuses about not being able to collect the product to replace it!

Now I am stuck with the wrong product, so do not trust their 7-day return guarantee! And definitely do not trust their reviews here!
