

FROM THE FOUNDER OF THE #VIKISEWS BRAND

Back in 2016, when I was working on my first set of sewing instructions, I was trying to write them in such a way that even a complete beginner could easily understand and use them to create their very first garment. These instructions laid the foundation for the Vikisews brand, its vision and its mission. I wanted to create modern patterns with the utmost detailed and clear instructions.

Now, with each new collection we are constantly improving our instructions, amending them and adding more relevant details. By the time the final product reaches you, our drafters, correctors, and editors would have spent weeks perfecting every word and every photograph. If you compile a few of our instructions together, you will get a sewing manual that will assist you in sewing all kinds of garments at any difficulty level.

And I would be very happy if these instructions helped you to turn your hobby into a lifelong passion... Enjoy the process! Create your ultimate dream wardrobe! Wear your garments proudly for years to come!

If you have any questions, please contact us at info@vikisews.com — we are always there to help.

SUGGESTED FABRIC

To sew this high neck sweater, choose knit fabrics with the following properties:

- soft, stretchy, elastic, medium weight
- the fiber content should include elastane and spandex and can also include natural fibers (wool, cotton), artificial fibers (viscose), blends (wool + polyester, cotton + polyester, cotton + elastane, etc.), and synthetics (polyester)
- the following fabrics are recommended: sweater knits, rib knits, jersey fabrics

Attention! We recommend using only stretchy fabrics for this high neck sweater.

The garment in the photo is made of sweater knit. The fabric is medium weight, soft, and stretchy. The fiber content is 95% cotton and 5% spandex.

IMPORTANT! When purchasing fabric, please account for shrinkage and buy 5% more than required.

2. Clear elastic, 0.8 cm (just under 3/8") wide — 30 cm (3/8 yd)
3. Matching thread — 5 spools (1 spool for the sewing machine + 4 spools for the overlocker)

TOOLS AND EQUIPMENT

- sewing machine for construction
- overlocker for construction and finishing raw edges. It can be replaced with a stretch overlock stitch or a zigzag stitch on the sewing machine (overlock or zigzag stitch width 2–3 mm, stitch length 2.5 mm)
- coverstitch or coverlock machine for finishing the garment hem. If you don't have a coverstitch machine, it can be replaced with a twin needle on any regular sewing machine that can do a zigzag stitch

IMPORTANT! We recommend using specialty needles when working with knit fabrics (for example, *STRETCH*, *SUPER STRETCH*, *JERSEY*, etc.). When sewing, a ball-shaped needle point pushes the knit loops apart without piercing the threads.

PATTERN PIECES LIST

1. From main fabric:
 - front — cut 1 on fold
 - back — cut 1 on fold
 - sleeve — cut 2
 - collar — cut 1 on fold

IMPORTANT! Don't forget to transfer all pattern markings and notches onto the fabric.

SEAM ALLOWANCES

All pattern pieces include seam allowances as follows:

- garment hem allowance — 2 cm (3/4")
- sleeve hem allowance — 2 cm (3/4")
- all other edges — 1 cm (3/8")

Take this into account when laying out pattern pieces on the fabric.

What to look for during fitting?

Verify the garment balance: the side seams should be vertical, the shoulder seams should lie on the natural shoulder line.

Check the fit of the sleeve. The sleeve should lie smoothly, without folds or wrinkles. After the fitting, make changes symmetrically to both sides of the garment; if needed, baste once more for another fitting.

Fold the back piece in half right sides together. Stretch the side edges between the armhole and the notch by 5 mm (just under 1/4") as you press.

Place the front and back pieces right sides together, align the shoulder edges and pin.
