3. COMPLIANCE WITH APPLICABLE LAWS AND REGULATIONS

- 3.1. This Agreement and all orders and Transactions are subject to Applicable Laws and Regulations so that: (i) if there is any conflict between this Agreement and any Applicable Laws and Regulations, the latter will prevail; (ii) we may take or omit to take any action we consider necessary to ensure compliance with any Applicable Laws and Regulations; (iii) all Applicable Laws and Regulations and whatever we do or fail to do in order to comply with them will be binding on you; (iv) such actions that we take or fail to take for the purpose of compliance with any Applicable Laws and Regulations shall not render us or any of our directors, officers, employees or agents liable; and (v) you agree to comply with all the Applicable Laws and Regulations.
- 3.2. We may make any amendment to this Agreement and take any such action which we consider necessary as a result of any requirements or changes in the requirements of the Applicable Laws and Regulations or pursuant to a general or specific recommendation made by CySEC, or any other regulatory authority of relevance to the Services we provide to you. We shall use reasonable endeavours to give you notice of such actions and amendments to this Agreement which will be effected in accordance with the provisions of Clause 46. Notwithstanding the provisions of Clause 46 in the case in which the urgency and the importance of any requirements or changes in the requirements of the Applicable Laws and Regulations or any general or specific recommendation made by CySEC or ESMA is such, that we reasonably consider this is justified, we may proceed with such actions and amendments to this Agreement with immediate effect or by giving a shorter notice period than that provided for in Clause 46.
- 3.3. If an Exchange (or intermediate broker, custodian or agent, acting at the direction of, or as a result of action taken by, an Exchange or any execution venue or a liquidity provider) or any relevant regulatory authority takes any action which affects an Order or Transaction, then we may take any action which we, in our reasonable discretion, consider desirable to ensure compliance with such action or to mitigate any loss incurred as a result of such action. Any such action shall be binding on you.
- 3.4. Transactions between you and Safecap may be subject to the rules and customs of an Exchange, execution venue, liquidity or price feed provider and/or any clearing house through which the Transactions are based on or executed. We may decide not to enter into a Transaction where we believe that such Transaction may violate the Applicable Laws and Regulations or the rules of an Exchange, execution venue or liquidity or price feed providers,

as applicable.

- 3.5. If (a) an Exchange, a clearing house, a regulatory body or governmental authority makes an enquiry in respect of any of your Transactions or Accounts, or (b) submission of information about you and/or your Transactions or Accounts is required or desirable under any Applicable Laws or Regulations, then: (i) we may act upon such enquiry and disclose such information without your further authorisation and/or confirmation; and (ii) upon our request, you agree to co-operate with us and promptly to supply information requested by us in connection with such enquiry or submission. You understand that under the Applicable Laws and Regulations we may not be permitted to disclose to you the fact of any enquiries or disclosures made in relation to your transactions and your Accounts, and you waive any claims you may have against us for not notifying you regarding any such enquiries or disclosures.

4. CONTRACTS FOR DIFFERENCE AND THEIR RISK CLASSIFICATION

Without prejudice to any other provision contained in this Agreement, you hereby represent and warrant that you understand and acknowledge the following:

- 4.1. CFDs are complex Financial Instruments which carry a high level of risk and are not appropriate for investors who do not possess the appropriate level of knowledge and experience to deal in them. You acknowledge and agree that you have received, read and understood our [Risk Disclosure Statement](#).
- 4.2. CFDs are Over the Counter ("OTC") Derivatives and
are bilateral contracts entered into between two counterparties. When you enter into any order to buy or sell a CFD on our Electronic Trading Platform, you trade solely with us as your counterparty. We are your principal to each trade that you enter.
- 4.3. When you trade in an OTC derivative contract such as a CFD trade, the value and payment obligations in relation to these are determined with reference to the price movement of an underlying Financial Instrument or reference point. As such, when entering into a Buy or Sell order for a CFD you speculate on a movement of the price of the underlying Financial Instrument. The risk of loss is exacerbated in the case in which Leverage is used for your trading in CFDs. The effects of trading with Leverage are as set out in Clause 6 and in our Leverage and Margin Policy. Certain jurisdictions apply a cap on leverage which prevails over this Investment Services Agreement and Leverage and Margin Policy.
- 4.4. You agree and accept that when you enter into a CFD trade, you do not become an owner of the underlying Financial Instrument and shall not receive physical delivery of such Financial Instrument. As an owner of a CFD, you will not have the right of attending and / or voting at any general meeting of the issuer of the Financial Instrument to which your CFD corresponds to. Similarly, you will not have a right to receive dividends, coupons or any other cash distributions made to the owners of such Financial Instruments. However, as set out in our Order Execution Policy, we will make positive or negative cash adjustments to your Account depending on the type of position that you hold in the relevant CFD.
- 4.5. We reserve the right to discontinue offering a CFD in any Financial or other Instrument at any time where believe that a material adverse change has occurred or is expected to occur, with the respect to amongst others the issuer of such Instrument, which may cause suspension or disruption in trading in such Instrument or cause material increase in volatility thereof or the operations or financial performance of the issuer of such instrument and / or any of its associated parties, or due to considerations related to the market's uncertainty or factors otherwise materially affecting the market.
- 4.6. Should we discontinue offering of CFDs under this agreement we may, after notification, require you to close all of your open positions in such Financial Instrument by a certain date. You hereby agree and give us consent with regard to treat our customers fairly to close your existing positions in such Instrument upon this date at the prices established by the Company.
- 4.7. The fact that OTC contracts such as CFDs are bilateral contracts entered into between two counterparties also

means that when you open a position with us, you must also close the position with us. You acknowledge, agree and accept that you are not able to close the position with any other counterparty.

- 4.8. The execution venue which we provide and through which you can trade with us CFDs, is not in the form of an Exchange.
- 4.9. OTC derivative contracts such as CFDs are not centrally cleared by a clearing house. This means that when you enter into a derivatives contract, the person you will have legal rights against under the derivatives contract, is Safecap as your counterparty under the contract. As such you take the credit risk, being defined as the risk of failure or non-payment, of Safecap.

5. CAPACITY AND CLIENT CATEGORIZATION

- 5.1. We act as market maker in certain markets, including CFD Transactions, meaning that we quote both Bid and Ask Prices. In relation to any Transactions, including when acting as Market Makers we are your counterparty in all Transactions and trades which you enter into with us.
- 5.2. Except where we agree otherwise with you, the Client and Safecap will enter into any Transactions as Principals.
- 5.3. You represent that you act as principal and not as agent (or trustee) on behalf of someone else. Unless expressly approved by Safecap in advance in writing, you may not act as an agent or trustee on behalf of someone else.
- 5.4. Unless we specifically advise you that we will treat you as a Professional Client, we will always categorize you as a Retail Client for the purposes of the Investment Services and Activities and Regulated Markets Law. You are entitled to certain Client protections stipulated in the Investment Services and Activities and Regulated Markets Law, including your ability to participate in the Investor Compensation Fund, available in [Clients Categorisation and Regulatory Protections Document](#).
- 5.5. In cases where you request that we categorize you as a Professional Client instead of a Retail Client, we may either: (a) allow you to be re- categorized as per your request in respect of any part or all of your dealings with us, subject to any documentation and other evidence as we may require in order to verify your eligibility with respect of such re-categorization and on such terms as we may notify you of upon acceptance of your request or (b) we may, if we do not agree to re-categorize you as per your request, refuse to enable this re- categorization.
- 5.6. If you do request such re-categorisation and we agree to such re-categorisation, the protection afforded to you by certain CySEC rules and the other Applicable Laws and Regulations may be substantially reduced, as explained in the Client Categorization and Regulatory Protections Policy. You hereby represent that prior to making a request for re-categorization to the higher Professional Client category, you have read and understood the loss of protection which this entails.
- 5.7. We may choose, in our implementation of relevant guidance notes issued by regulatory authorities, to treat you either as an Experienced Retail Client or as a Less Experienced Retail Client, as set out below.
- 5.8. We may use other members of our Group or third parties in undertaking work on our behalf with respect to Services we provide to you pursuant to this Agreement (the “**Service Providers**”). The work undertaken on our behalf by such Service Providers may indicatively include execution of marketing campaigns, gathering and processing of client information, specialised software and IT services or other client support services. These Service Providers may be located within or outside the European Union. Where we choose to co- operate with such Service Providers, we shall do so in accordance with the Applicable Laws and Regulations. We remain at all times responsible to you for the Services provided to you, in accordance with the terms of this Agreement and irrespective of any work that may be undertaken on our behalf by such Service Providers. Except where there is a Force Majeure Event, we are responsible for the conduct of work of such Service providers in relation to the work and activities they undertake on our behalf. We shall use reputable and competent Service Providers and have in place controls as to the selection and monitoring of the performance of the work executed on our behalf by such Service Providers.

6. SUITABILITY AND APPROPRIATENESS

No Suitability Assessment

- 6.1. You acknowledge and accept that Safecap does not provide investment advisory services or discretionary portfolio management services, and therefore that the Applicable Law and Regulations do not require Safecap to assess suitability for its customers of the Services or Financial Instruments offered to, or demanded by, the customers.
- 6.2. You hereby expressly acknowledge that the CFDs product category in which you deal with through the Services provided by us, is not intended to be presented by us as suitable for you, and any comment or statement which may be made by us or any employee or agent of ours, including any Introducing Brokers, regarding such CFDs or any research disseminated by us, should under no circumstances be considered to be an investment advice and should not be received or relied upon as such, should under no circumstances be considered to be an investment advice regarding CFDs or trading CFDs and should not be received or relied upon as such.
- 6.3. You hereby expressly acknowledge that we provide the Services on an execution only basis and you represent to us that you understand that in the absence of negligence, breach of contract, wilful default or fraud on our part, we have no liability to you for any loss or damage suffered by you as a result of any investment made by you through the Services provided by us under this Agreement.
- 6.4. As we are acting on an execution only basis, when submitting an Order or when asking us to enter into any Transaction, you represent that you are solely responsible for making your own independent appraisal and investigations into the risks of the Transaction. You represent that you have sufficient knowledge, and experience to make your own evaluation of the merits and risks of any transaction, including a risk of losing all of your invested capital. We give you no warranty as to the suitability of the CFDs traded under this Agreement and neither have nor assume any fiduciary duty in our relations with you.
- 6.5. Unless we expressly agree otherwise, we will not undertake any assessment of your needs and objectives, financial situation, and risk tolerance in relation to your Transactions.
- 6.6. We will not be obliged to review and will not review the Transactions you have entered into or about to enter into.

Appropriateness Assessment - Professional Clients

- 6.7. If you are classified as a Professional Client and to the extent that we are required under the Applicable Laws and Regulations to assess whether a Service or a Transaction is appropriate for you, we are entitled under the Applicable Laws and Regulations to assume that you have sufficient knowledge, market sophistication and experience to understand the risks involved in such Services or Transactions or types of Transactions or CFDs, and to make your own evaluation of the merits and risks of any Transaction you enter into.

Appropriateness Assessment - Retail Clients

- 6.8. If you are a Retail Client, we are required by the Applicable Laws and Regulations to assess your knowledge and experience in trading in complex financial instruments such as CFDs and to assess whether such instruments are appropriate to you.
- 6.9. At the Account opening and registration stage you are required to provide us with information regarding your knowledge and experience, primarily with respect to trading in complex Financial Instruments such as CFDs and the use of leverage so as to enable us to comply with our obligations under the Applicable Laws and Regulations. You will also have to agree and accept our Risk Disclosure Statement.
- 6.10. The information required by us for the purposes of the appropriateness assessment may be gathered by means of a standardised questionnaire or we may require answers to questions over a conversation with you, or we

may use any other method or combination of methods for the purpose of gathering such information. It is your responsibility to ensure that you provide us with complete and correct information in order to enable us to carry out the appropriateness assessment. If we consider, in our discretion, that the responses provided are insufficient or are inconsistent or conflicting, we may require further clarifications as to these responses.

- 6.11. The purpose of the appropriateness assessment is to enable us to assess your knowledge and experience so as for us to be in a position to reasonably determine whether complex Financial Instruments such as the CFDs are appropriate for you to invest in. As such, you should consider carefully any warning which we give to you as a result of making the appropriateness assessment. If you have any questions or require any further clarifications regarding the appropriateness assessment, you should contact us for such further assistance and clarifications.
- 6.12. We reserve the right, at any time, to require that you provide us with additional or other information for the purposes of the appropriateness assessment, even after we have confirmed successful completion of the appropriateness assessment. This may be done in respect of: (i) us verifying through supporting documentation your knowledge and experience in trading in complex Financial Instruments such as CFDs, (ii) any proposed changes to the Leverage ratios you may trade with, (iii) in respect to a change to your circumstances which has come to our attention, (iv) as part of any ongoing or bespoke monitoring activity carried out by us in compliance with Applicable Laws and Regulations, or (v) in any other circumstances in which we consider that it is reasonable or appropriate for such information to be gathered.
- 6.13. When carrying out the appropriateness assessment, we have the right, at our entire discretion, to determine and allocate relevant weights to the questions submitted to you and to your answers.
- 6.14. You hereby represent and warrant that you understand the purpose of the assessment of appropriateness that we undertake and the importance of providing us with full and correct information for this purpose. You are warned and hereby accept, that if you provide incorrect or incomplete information regarding your knowledge and experience in the investment field, this will adversely affect our ability to carry out the appropriateness assessment correctly.
- 6.15. Based on our evaluation of your knowledge and experience we will classify you either as an Experienced Retail Client, a Less Experienced Retail Client or as non-experienced to deal in complex Financial Instruments in which case the on boarding process would have to be terminated. You agree and accept that the evaluation and your relevant classification is entirely at our discretion, based on the information that you have provided to us in an accurate and comprehensive manner and that it is entirely at our discretion and right to refuse to accept any person as a Client without us having to provide any reasons or justification for this.
- 6.16. Furthermore you hereby agree and accept that both the Experienced and Less Experienced Retail Client categories represent our internal categories of the Retail Client categorization under the Applicable Laws and Regulations and that Safecap has full discretion as to how to determine these categories.
- 6.17. We acknowledge and agree that in all cases you will be entitled to the protections available under the Applicable Laws and Regulations as a Retail Client, irrespective of your classification as Experienced or Less Experienced Retail Client.
- 6.18. A Less Experienced Retail Client may be re-classified as an Experienced Retail Client where he / she has completed at least an aggregate 40 trades in 4 consecutive months of trading with us, with no less than 2 trades per month, provided that we have no other reason, at our discretion, not to permit such automatic categorisation and provided that the Applicable Laws and Regulations do not set any other requirements or conditions. We will notify you of such categorization from less Experienced to Experienced Retail Client and assume, unless you advise us otherwise, that you have consented to this and to the higher Leverage ratios that will be made available to you as described below. We reserve the right to change, at our discretion, the criteria we use for our internal classification of Clients as Less Experienced or Experienced Retail Clients. You acknowledge, accept and agree that at all time you are solely responsible for setting the Leverage levels for your trading in CFDs, including where you opt to trade with the levels set by our Leverage and Margin Policy or by any regulatory authority as well as for your trading decisions.
- 6.19. Notwithstanding with the foregoing provisions, we are required under MiFID rules to consider, based on your

knowledge and experience whether complex products are appropriate for you. Shares are non-complex products and therefore, no assessment of your appropriateness will be conducted with respect to this product.

- 6.20. Where you have been classified as an Experienced Retail Client, you will be permitted to trade in CFDs with Leverage levels which you select at your discretion, subject to any maximum level restrictions set out in our Leverage and Margin Policy available in our Customer Legal Documents Pack. - 7.9. Where after the assessment of your knowledge and experience but before completion of the KYC process you remit any funds to us, such funds will be placed on hold until the KYC process is completed. - 10.19. Unless you give us a different order, all orders which you place with us are considered to be "Good Till Cancelled", as is further explained in the Order Execution Policy.
- 10.20. You acknowledge that, several factors may lead to a sharp movement in price between receipt of your order and execution ("Price Slippage" or "Market Gapping") and such movement may be to your advantage or to your disadvantage. You acknowledge that Price Slippage and Market Gapping may occur as a result of various factors which may be beyond our control, including market data latency, sudden changes in the market, the speed of your internet connection and high market volatility. Whilst we shall act in accordance with our obligations under the Applicable Laws and Regulations at all times in the execution of your orders, in the case of Price Slippage or Market Gapping occurring, your order may not be executed at the proposed execution price. It may be executed at a price which is much worse. In such cases, orders will be executed at our Price, based on the first price which we are able to obtain on the underlying Financial Instrument.
- 10.21. We will take such steps as are reasonable in the circumstances in order to avoid or mitigate the effects of Price Slippage and Market Gapping, as described further in our Order Execution Policy. We reserve the right to change these terms by amending this agreement.
- 10.26. In our Order Execution Policy we set out the process we implement in seeking to achieve Best Execution for you, our dealing capacity and potential conflicts. In respect of Retail Clients, the best possible result is determined in terms of the total consideration, including how we form our prices and the costs related to execution, which shall include all expenses incurred by you which are directly related to the execution of the order, including execution venue fees, clearing and settlement fees and any other fees paid to third parties involved in the execution of the order. Notwithstanding the provisions of this Clause, whenever there is a specific instruction from you, we shall aim to execute the order following the specific instruction, subject to the provisions contained herein, having however regard to the types of order and Price Slippage and Market Gapping as set out within this Agreement.
- 10.31. In discharging our obligations to you with respect to execution of your orders we take into account the factors of costs, speed, likelihood of execution and settlement, size, nature and any other consideration relevant to the execution of the order.

Market-Making Activity

- 10.33. We are a Market Maker in the CFDs that you trade with and for which we offer our Prices for. We deal on own account as your only execution venue for CFDs. In dealing with you as Market Maker, we aim to achieve the best possible result for you on a consistent basis such that the result is at least the same as could be achieved on other venues. We use independent price sources and liquidity providers in order to derive and benchmark our Prices.
- 10.34. We are your counterparty to each Trade. We draw your attention to the fact that once you open a position with us, you will have to transact with us to close the position i.e. you cannot close the position with another firm which may provide different pricing or transfer your position to such w party firm. Where you trade in CFDs with a fixed expiry, you will be subject to our pricing arrangements at the expiry of the derivative contract, including our rollover arrangements into new contracts.

Prices

- 10.35. We quote a two-way Price for each CFD we offer. This two-way price consists of a **Bid** (the lower price which is the price at which you as a client may “**Sell**” the CFD) and an **Ask** (the higher price which is the price at which you as the client may “**Buy**” the CFD). The difference between our Bid and our Ask price for each CFD we offer is referred to as our “**Spread**”.
- 10.36. We shall only accept orders at our Prices provided that such Prices continue to be valid and available at the time at which you submit the relevant order.
- 10.37. We may change our quoted Prices at any point in time. Any amendments to our Prices will be effective immediately.
- 10.38. We source Prices for the CFDs as described in our Order Execution Policy. Where CFDs are based on liquid markets or regulated markets where underlying Financial Instruments are traded on, our Prices are based on published / externally verifiable prices which reflect actual underlying pools of liquidity or a public reference price. If a preferred Price source is temporarily not available during Working Hours, we may execute a CFD trade based on a price of the last trade executed in the underlying instrument or we may seek a price from another market maker known to us to offer consistent pricing in an instrument. We will not construct our own benchmark price if there is a relevant public reference price available.
- 10.39. Where circumstances are such that we are required to exercise discretion or judgment in setting our Price, we will do so acting reasonably following a clear and verifiable process. At your request, we shall provide you with further information regarding the steps taken to execute your orders, in cases where such discretion is exercised.
- 10.40. In the course of the performance of our execution obligations, we may decide and undertake hedging arrangements with various counterparties and / or liquidity providers. We may hedge or execute orders by entering into transactions with other brokers, including, where relevant, other brokers in our Group. Where this gives rise to a conflict or potential conflict of interest, this will be managed or disclosed in accordance with the provisions of our Policy for the Management of [Conflicts of Interest Policy](#). Where we execute an order or hedge a trade with a third party, which could impact the quality of execution offered by us to you, we shall ensure that the arrangements between us and such third party are at arm’s-length and do not conflict with our obligations under the Applicable Laws and Regulations. In all cases such hedging arrangements do not impact the Prices we provide and our overall arrangements of sourcing Prices as set out above and in our Order Execution Policy.
- 10.41. In certain cases, such as technological or other system failures or in the case of Force Majeure Events, we may not be able to provide a Price for a Market. It is likely that Prices quoted over a conversation by a representative of ours may not continue to be available if not accepted immediately. We reserve the right to refuse to execute your Order if we reasonably believe that in executing Orders in such circumstances we will not be able to comply with our obligations under the Applicable Laws and Regulations. Our Spreads are variable, depending on the asset. We publish our Spreads on our Website and may differ depending on the Electronic Trading Platform.
- 10.42. A variable Spread means that the Spread will vary throughout the day, depending on market volatility and available liquidity. Spreads represent the best Bid and Ask prices we are able to obtain from our liquidity providers, underlying Exchanges or other data feed providers. Variable Spreads have a minimum value set by us, meaning that the Spread can be as low as certain pre-determined level and can fluctuate above that level according to market conditions. These minimum values are published on our Website.
- 10.43. We have the right to change Spreads, to reflect periods of actual or potential increased market volatility in the prices of underlying Financial Instruments or other market volatility caused by political or economic events.
- 10.44. Our CFD Prices are proprietary prices which are derived from the prevailing (“published”) market prices of the underlying Financial Instruments in the relevant markets in which the underlying instruments may be traded in or from other applicable third – party data vendor sources. We take all sufficient steps to source the best possible Price for our clients.
- 10.45. Further details regarding how we set and vary our Spreads can be found in our Order Execution Policy.

- 13.3. The variation of any maximum or minimum trade sizes depends on several factors and is further described in our Order Execution Policy.
- 13.4. Details regarding any maximum or minimum trade sizes can be provided to you by us. It is your responsibility to remain informed as to any maximum or minimum trade sizes which may apply at any time.
- 13.5. We may at our discretion waive any maximum or minimum trade sizes which may be applicable at any time.

14. OVERNIGHT SWAP (SWAP FEE) CHARGES AND CFD EXPIRATION ROLLOVER CHARGES

- 14.1. A daily Overnight Swap (Swap Fee) charge may apply to each CFD open position at the closing of SAFECAP's trading day. If such a charge is applicable, it will either be requested to be paid by you directly to us or it will be

paid by us to you, depending on the type of CFD and the nature of the position which you hold. The method of calculation of the rollover charge may vary according to the type of CFD to which it applies. Moreover, the amount of the charge will vary as it is linked to current interbank interest rates (such as LIBOR). The charge will appear on your Account at the end of the trading day.

- 14.2. We reserve the right to change the method of calculating the rollover charge, the charge rates and/or the types of CFDs to which such a charge may apply.
- 14.3. Changes in our rollover charge interest rates and calculations shall be at our own discretion and maybe without notice. You are requested to refer to our Website for the applicable / current rates charged. Rates may change quickly due to market conditions (changes in interest rates, volatility, liquidity etc.) and due to various risk related matters that are at Safecap's sole discretion.
- 14.4. Any open CFD transaction held by you at the end of any trading day as determined by us or over any weekend, shall automatically be rolled over to the next trading day so as to avoid an automatic close and physical settlement of the transaction. You acknowledge that when rolling over such transactions to the next trading day, a premium may be either added or subtracted from your Account with respect to such rollover transactions. We advise you that the charges, as specified at the Website, are multiplied by three (x3) on the following times:
 - (i) For all CFDs except the CFD types specified in point (ii) below and the CFDs available for trading 7 days a week - on each Friday at 22:00 GMT (21:00 during summer time);
 - (ii) For CFDs in currencies - on each Wednesday at 22:00 GMT (21:00 during summer time);

We inform you that CFD transactions, where trading is enabled 7-days a week, are charged on a daily basis and are not subject to the Friday/ Wednesday multiplication factor applicable to other transactions. All rollover charges will show up in your Account as "Swap" charges or credits depending on the Trading Platform that you are using.

- 14.5. Unless otherwise specified, a CFD that is linked to a financial instrument which is a Future or similar instrument (but excluding any Cash Index CFDs has an expiration date. However, you should be aware that CFDs in Futures are not traded up until the exact expiration date of the underlying Future. Instead, CFDs, are rolled over to the next underlying Future price, a few days before the expiration date. This can occur on any calendar weekday, depending on the market conditions including but not limited to liquidity and volume. This is known as the Expiration Rollover. For detailed information regarding the specific expiration dates applicable to each trading symbol, please refer to the 'Expiration Dates' section available under the 'Trading Info' tab on our website.
- 14.6. We may inform you about any projected expiration of underlying Future contracts through our Website. However, note that we cannot provide adjustment information about the rollover in advance and before the adjustment occurs. Therefore, where you have open positions that you do not wish to have rolled over to reflect effectively the new tradable Futures contract, you should close the position(s) and/or cancel Orders before the rollover date and open a new position, at your discretion, afterwards.
- 14.7. The price difference between the price of the expiring Future contract underlining your original CFD Order as at the expiration date and the price of the rolling over (new) Futures contract underlining your effectively new CFD Order (being the next underlining Future price referred to above) will be debited/credited to your Account by means of negative/positive adjustments into your Account, relative to the size of your order. Whenever an Expiration Rollover occurs, we will charge you an amount (which will be include within "Swap" or 'Expiration Rollover" charges depending on the trading platform you are using) which shall be equal to the Spread of the CFDs being rolled- over. This effectively aligns to the cost that you would have incurred if your CFD Order would have been closed on the expiration date and you would open a new CFD Order based on the new Future contract. These charges (included in the "Swap" or "Expiration Rollover" charges depending on the trading platform you are using) shall be determined by us from time to time, in our absolute discretion. You hereby authorise us to subtract such charges from your Account without your prior consent having regard to the disclosures made herein.
- 14.8. Notwithstanding anything to the contrary, and depending on the Electronic Trading Platform you are using, any stop loss/take profit, entry stop or entry limit orders attached to your original CFD Order in the underlying

Future contract before it is rolled over pursuant to this Clause 14, will be adjusted to symmetrically (point-for-point) reflect the price differences between the expiring underlying Future contract and the new CFD Future contract that your position will be automatically rolled over into. New stop loss/take profit levels will therefore automatically symmetrically apply to the new CFD Future contract, based on the distance you selected for such loss/take profit levels for the original CFD Future contract.

- 14.9. We may inform you about any projected expiration of underlying Future contracts through our Website. However, note that we cannot provide adjustment information about the rollover in advance and before the adjustment occurs. Therefore, where you have open positions that you do not wish to have rolled over to reflect effectively the new tradable Futures contract, you should close the position(s) and/or cancel Orders before the rollover date and open a new position afterwards. For further information about please refer to our [Order Execution Policy](#).
- 14.10. For swap free accounts, due to their nature, the aforementioned actions shall be effected through manual credit or debit adjustments, to reflect the difference on the Price between the old expiring contract and the new contract. The calculation formula and prices used are the same as prescribed for the normal (non-swap free) procedure. Any such manual adjustments will not affect your Equity.
- 14.11. We reserve the right at any time to apply the swap free accounts procedure and reflect the difference to the Price through manual adjustments instead of through swaps or other charges. The provisions of this Clause 14 are subject to the provisions of the Order Execution Policy.
- 14.12. In case the liquidity of the underlying Future for the CFD that is due to expire is low, we may, at our discretion, effect the rollover on an earlier date than the prescribed one.
- 14.13. All rollover adjustments are calculated in the currency the underlying financial instrument is denominated in. In case the Account is in a different currency, we will, through our Electronic Trading System, automatically convert this to the Base Currency of the Account.
- 14.14. The provisions of this Clause 14 are subject to the provisions of the Order Execution Policy which you are asked to refer to.

15. NEGATIVE BALANCE PROTECTION

- 15.1. We provide you with “negative balance protection” for your Account. This means that your losses can never exceed your Equity.
- 15.2. The negative balance protection limits your aggregate liability for all CFDs connected to your account, ensuring that your maximum losses from trading CFDs, including all related costs, are limited to the total funds that are in your account. This includes any funds yet to be paid into your account due to net profits from the closure of open CFDs connected to the account.
- 15.3. In some jurisdictions, where we are required to do so in accordance with the local Applicable Laws and Regulations, we may offer you additional protection mechanisms, limiting your maximum potential losses. Where we offer you such additional protection mechanism these will adhere to the requirements of the local Applicable Laws and Regulations, noting however in the case of Price Slippage or Market Gapping occurring, your Order may be executed at a price materially different to proposed execution price indicated at the time of placing the Order and in such cases such additional protection mechanisms will be correspondingly affected. Details of any such additional protections that may be available to you shall be communicated to you by the Company by e-mail or via the Electronic Trading Platform. You understand and agree that any such additional protection mechanisms referred to in this Clause 15.2 shall only be offered by us if it is so required under the Applicable Laws and Regulations and may not be available to all Customers of the Company.
- 15.4. Please note that the Company reserves the right, at its sole and absolute discretion to terminate the Agreement with immediate effect where we have reasonable grounds to believe that you have not acted in good faith, including but not limited to where we determine that you have, willingly or not, abused the Company’s negative balance protection. This includes, but not limited to you hedging your exposure using multiple trading Accounts,

including in coordination with other parties.

16. PROFITS AND LOSSES

- 16.1. You will have made a profit where you sell to us at the time at which our quoted Price is higher than our quoted Price was at the time at which you bought from us.
- 16.2. You will have made a loss where you sell to us at the time at which our quoted Price is lower than our quoted Price was at the time at which you bought from us.
- 16.3. Such profit or loss will be adjusted to take into account fees, costs, charges and dividend adjustments. Realised profits will be credited and losses will be debited to your cash balance in your Account. Unrealised profits and losses as per the market conditions existing at the relevant point in time, will be reflected in the profit and loss position and the Equity of your Account. Such unrealised profits and losses will determine your obligation to post Margin with us and will also determine whether any other trading restriction or trading limit which we may have in place at any time, applies to you.

17. SINGLE EQUITY AND CRYPTOCURRENCY PRODUCTS

- 17.1. The provisions of this Clause apply in the case of margined trades which relate to CFDs in underlying equities, equity forwards and related products, and CFDs in Cryptocurrencies.
- 17.2. In some regulated equity markets, it may be difficult to take a Short Position. This may be the case for instance if the underlying equity related Financial Instrument is in short capitalisation or is illiquid, or where an Exchange or regulator have prohibited short trading. In such cases we may not be able to provide a CFD with to reflect a short position at all, or you may be charged a supplementary fee by us in order for us to open such a Short Position for you. We will advise you where possible of such supplementary fee in advance, based on the date we become aware of such short selling prohibitions.
- 17.3. When trading in CFDs where the underlying asset is a Cryptocurrency, you should be aware that the Cryptocurrencies are traded on non-regulated decentralized digital exchanges. Accordingly, price formation and price movements of the Cryptocurrencies depend solely on the internal rules of the particular digital exchange, which may be subject to change at any point in time and without notice. This often leads to a very high intra- day volatility in the prices of the Cryptocurrencies which may be substantially higher compared to Financial Instruments recognized under the MiFID II. Therefore, by trading CFDs in Cryptocurrencies you accept a significantly higher risk of loss of your invested amounts which may occur within a very short time frame as a result of sudden adverse price movements of the Cryptocurrencies.
- 17.4. We derive our market and pricing data on the Cryptocurrencies from the digital decentralized exchanges the Cryptocurrencies are traded on. Due to the non-regulated nature of such exchanges, the market data and price feed information provided by such exchanges may be subject to the internal rules and practices of such exchanges which may significantly differ from the rules and practices observed by the regulated exchanges. In particular, you should be aware that the pricing formation rules of the Cryptocurrency exchanges may be changed at the relevant digital exchange's discretion at any time. Similarly, such digital exchanges may introduce trading suspensions or take other actions that may result in suspension or cessation of trading on such exchanges or the price and market data feed becoming unavailable to us. The above factors could result in material adverse effect on your open positions, including the loss of all of your invested amounts. Where a temporary or permanent disruption to or cessation of trading occurs on any digital exchange from which we derive our price feeds for the relevant Cryptocurrency, your positions in such Cryptocurrency will be priced at the last available price for the relevant Cryptocurrency, and you may be unable to close or liquidate your position or withdraw any funds related to such position until the trading on the relevant digital exchange resumes (if at all). You accept that where trading resumes again at either the relevant initial digital exchange or on any successor exchange

thereof, there may be significant price differential (price gapping) which may impact the value of your CFD positions in the relevant Cryptocurrencies and result in significant gains or losses. In the event that the trading resumes on any other successor exchange than the relevant initial digital exchange, the Company reserve the right to perform adjustments in order to neutralize the effect of the price difference of the two exchanges. Where trading does not resume your entire investment will potentially be lost altogether. You agree and accept that you have been informed by the Company of and understand this particular risk, and that you shall take that risk into account when taking any investment decisions in respect of trading CFDs in Cryptocurrencies.

- 17.5. When trading CFDs in Cryptocurrencies, you represent and warrant to us that you fully understand and agree with the additional risks associated with such trading, as set out in Clauses 17.3-17.5 above. For the avoidance of doubt, all other terms of this Agreement are fully applicable to you when you trade CFDs in Cryptocurrencies.
- 17.6. Notwithstanding anything to the contrary in this Agreement, Safecap shall have a right, acting reasonably and in response or in anticipation of market volatility, to change the features and product characteristics of any CFDs in Cryptocurrency products offered by Safecap, by giving you at least 3 (three) calendar days' prior notice or any such shorter notice if we deem it necessary, acting reasonably, in light of the prevailing market conditions. Such changes may include, but are not limited to, the change of the expiration period for our CFDs in Cryptocurrencies (if any) to any shorter or longer period or the introduction or amendment or termination of any other features applicable to such CFDs. It is understood and agreed that any changes introduced by us under this Clause 17.7 shall apply to all of your trades in CFDs in Cryptocurrencies, whether Buy or Sell, and shall apply also to all of your positions in CFDs in Cryptocurrencies, including those positions that exist as at the effective date of any notice of change that we may give to you under this Clause 17.7.

18. CORPORATE ACTIONS

- 18.1. Corporate Actions can have an impact on the price of the Financial Instruments and thus on the price of their corresponding CFDs in which we provide Prices. A Client who performs a transaction in a CFD has no ownership of the underlying Financial Instrument. However, in the event of a Corporate Action on the underlying Financial Instrument of a CFD, the Company shall make the relevant adjustments in the Account to reflect the economic effect of the Corporate Action on the price of the CFD. This can be done through a cash adjustment and/or a position adjustment in the Account before or after the date set for the Corporate Action ("Effective Date").
- 18.2. If: (i) a Corporate Action occurs in relation to a Financial Instrument which is underlying any CFD open position which you have with us, or (ii) Asset Material Adverse Change occurs; or (iii) our market exposure in respect of any Financial Instrument or other instrument exceeds our internal exposure limits, we may exercise any of the following rights, provided that in doing so we shall act reasonably and shall use our reasonable efforts to preserve the value of your open positions having regard to our duty to treat our customers fairly and our best execution obligations to you:
 - a) Change our Prices;
 - b) Change any trading limits which we may have in place;
 - c) Change any Margin or Leverage parameters;
 - d) Change the opening Price, opening stake or opening size of any position;
 - e) Require (by a reasonable advance notice) that you close any open positions which you may have in the affected Financial Instrument or other instrument, and, should you fail to do so, close such positions at our Price;
 - f) Open new position for you in any relevant new Market;
 - g) Freeze the Account including the opening or closing of any or all affected positions and suspend any trading activity between us until the relevant adjustments are performed;
 - h) Set the CFD of which its underlying Financial Instrument is subject to the Corporate Action on a close-only mode, in which case no new positions may be opened and
 - i) Make the relevant adjustments in your Account to restore the Account's Transactions in the underlying Financial Instruments which were (post the Effective Date) or are to be (prior to the Effective Date) affected by a Corporate Action. Such adjustments shall be executed at the then-current market prices

which may be different than the Prices at which the original Transactions were executed.

- j) Restrict or disable opening of any new Sell and/or Buy Positions in the affected Financial Instrument or other instrument.

- 18.3. Where you hold either a Short Position or a Long Position in an underlying Financial Instrument which had been subject to a split or reverse split, we may proceed with a position adjustment in order to make the necessary adjustment to the Price and trade size of the Financial Instrument to reflect the split or reverse split economic effect at the Account. In this case, we may close-out the position in the Account and reinstate the position under a new underlying Financial Instrument with the adjusted Price to reflect the effect of the split or reverse split.
- 18.4. In case where you hold a Long Position, the underlying Financial Instrument of which had been subject to a split, we may proceed with a positive adjustment to your Account. Where you hold a Long Position and the underlying Financial Instrument has been subject to a reverse split, we may proceed with a negative adjustment to your Account.
- 18.5. In case where you hold a Short Position, the underlying Financial Instrument of which had been subject to a split, we may proceed with a negative adjustment to your Account. Where you hold a Short Position and the underlying Financial Instrument has been subject to a reverse split, we may proceed with a positive adjustment to your Account.
- 18.6. We reserve the right to reduce Leverage ratios for CFDs in Financial Instruments that may be the subject of actual or anticipated Corporate Actions, in order to address likely market and Financial Instrument volatility. Where possible we will give you 1 day notice of such change so as to enable you to take the action you consider appropriate.
- 18.7. The abovementioned measures may be applied on one or more Accounts, pre or post the effective date of the Corporate Action, within a reasonable timeframe and in doing so we shall use reasonable efforts to minimise the disruption of the use of the Accounts.
- 18.8. In cases where we exercise our rights as stated above, we shall use reasonable endeavours to notify you as soon as reasonably practicable.

19. TRADE CONFIRMATIONS AND ERRORS

- 19.1. Confirmations for all Transactions that we have executed on your behalf on that trading day will be available on your Account accessible online, which is updated constantly as each Transaction is executed.
- 19.2. You may also view your cash position, Equity and Margin Level on the relevant Electronic Trading Platform on which you are trading.
- 19.3. You are responsible for reviewing trade confirmations as well as your cash position, Equity and Margin Level, ensuring their correctness and determining at your sole and entire discretion the actions you will take. We shall, on your request, provide you with such clarifications or explanations as may be reasonably required explaining any trade confirmation as well as your cash position, Equity and Margin Level. None of these clarifications or information we provide should be construed or interpreted to comprise any form of recommendation or advice on action you should or should not take.
- 19.4. If there is a manifest error in any statement or display or other information provided or statement made by us, we may, acting reasonably and in good faith, void any Transaction or refuse to accept any order and/ or reverse the effect of any Transaction or amend any trade so that the relevant trade is effected as if the error was not made.
- 19.5. If you believe that a trade confirmation or your cash position, Equity and Margin Level as displayed are incorrect, you must notify us in writing immediately. You should notify us of any error in any trade confirmation or Equity or your Margin Level as soon as reasonably practicable and in any event within 30 days of the trade confirmation being made available to you or the cash position, Equity or Margin Level being displayed. Failure on your part to do so will result in the relevant trade confirmation or your cash position, Equity or Margin Level as displayed

being considered as final and binding on you.

- 19.6. In exercising the above rights we shall at all times act reasonably and shall inform you as soon as reasonably practicable of becoming aware of an error.

20. SWAP FREE ACCOUNTS

- 20.1. In the event the Client, due to their observance of their religious beliefs, cannot receive or pay interest, such Client may apply, by completing and submitting to the Company an application form which shall be provided to you on your request (this form may be amended by the Company from time to time) or via such other procedure as the Company may designate from time to time in its sole discretion, for their Account to be designed as a Swap Free Account not charged with or entitled to, premiums and/or rollovers and/or interest ("**Swap Free Account**"). - 20.4. Where you have a Swap Free Account, you are obliged to close any open CFD position within 45 (forty-five) calendar days of opening thereof. In the event of your failure to do so, the Company shall have a right to treat any such instance as an abuse by you of the terms of operation of such Swap Free Account and take any of the actions specified in paragraphs (a) to (d) of Clause 20.2 above and/ or charge to such open CFD positions the rollover charges in accordance with Clause 14 hereof, in each case with retroactive effect.

23. LEVERAGE

- 23.1. By entering into this Agreement, you acknowledge, agree and accept that you understand the concepts of Leverage and Margin.
- 23.2. Trading on leveraged capital means that you can make trades with values that are significantly higher than the funds you actually invest, which only serve as the Margin. High Leverage can significantly increase the potential return, but equally it can also significantly increase potential losses. The leverage is specified as a ratio, such as 1:50, 1:200, 1:300 or such other ratio that we may introduce from time to time.
- 23.3. You can select and use the selected Leverage ratio for any specific CFD class or individual CFD on an ongoing basis and nothing in this Agreement should be construed as Safecap recommending any specific leverage level for you. The leverage limits for Retail Clients are subject to:
- 23.3.1. The individual Leverage levels we set from time to time at our entire discretion based on our Leverage and Margin Policy.
- 23.3.2. Notwithstanding the fact that you may be allowed to change the Leverage, when and as permitted hereunder, you understand and agree that the Leverage levels applicable to your existing open Positions cannot be changed by you and shall not be affected by any changes in the Leverage levels that may be introduced by us, provided that such changes are not imposed by any Applicable Laws and Regulations. This means that only the positions you open after the Leverage level changes are introduced, shall be affected by the same.
- 23.3.3. Our classification of you as either an Experienced Retail Client or a Less Experienced Retail Client based on our initial assessment of your knowledge and experience in trading in complex financial instruments such as CFDs and whether such are appropriate to you as provided in Clause 6 hereinabove.
- 23.3.4. The default maximum leverage level of 1:30 or any other limits set by other relevant regulators as appropriate, and is also subject to the terms of our Leverage and Margin Policy. In all cases, Less Experienced Retail Clients cannot select a leverage level higher than the Default Leverage Limit. You

are solely responsible for selecting and setting your leverage level for CFDs on an ongoing basis.

23.3.5. We reserve the right to apply leverage ratios to a particular asset class or part thereof (e.g. the Commodities asset class) and not to individual financial instruments within such asset class.

23.3.6. We operate a tiered margin model which means that upon meeting certain thresholds of volume/lot size, the leverage for the tier will decrease and therefore, the margin required for the position will increase accordingly. For more information, please refer to our [Leverage and Margin Policy](#).

23.4. Without prejudice to any other rights which we have under this Agreement, where we allow you to trade at Leverage levels which are higher than the Default Leverage Limit, we may at our discretion, impose additional conditions or restrictions, including without limitation, requiring you to perform a number of trades at a lower leverage level, conducting additional or other appropriateness tests and/or imposing restrictions on the amount which you may invest.

23.5. Subject to the above, changes to the leverage ratio can be effected in accordance with the [Leverage and Margin Policy](#). Details regarding the various leverage ratios which you may select in respect of different asset classes can be found at our Leverage and Margin Policy.

23.6. Notwithstanding the provisions set out above, we may restrict the default and/or any selected Leverage ratios at any time and without notice if we consider this to be in your best point in time is 50%, subject to interest, or this is required under the Applicable Laws and Regulations or we, at our entire discretion, consider it necessary having regard to prevailing or expected market conditions and volatility. Whilst we endeavour to give you reasonable notice of such action, you acknowledge and agree that especially at times of increased actual or expected market volatility caused by either foreseen or unforeseen political and economic events, we may proceed to such changes whilst notifying you of these only at the same time.

24. MARGIN

24.1. Leverage ratios are also expressed in percentage terms and comprise the Margin requirements for your Account. For example at the Default Leverage Limit ratio of 1:20, the Margin required is 5%. Upon opening a Transaction, this Margin amount will be required to be held as collateral (otherwise known as “**Initial Margin**”) and to be maintained at all times until and subject to close out or termination of the relevant Transaction. The Margin payments required vary depending on the Leverage ratio of the CFD and the underlying Financial Instrument and the contract value of the Transaction. Details of our policy regarding the Margin requirements applicable to each CFD can be found at our Leverage and Margin Policy. The minimum level of Margin Level required for maintaining any open positions at any point in time is 50%, subject to Clause 24.4 below.

24.2. Your obligation to comply with the Margin requirements and maintain the relevant Margin Level as this applies to your open positions under all your Transactions with us, is a continuing obligation to which you are subject throughout the period during which a Transaction is open and exists independently or whether or not we provide you with any warning as to your obligation to maintain the relevant Margin Level and the consequences of your failure to do so. Where we are obligated or elect to warn or notify you of insufficient Margin hereunder, we shall, at our discretion, do so by means of e-mail and/or SMS and/or push notification and/or by means of our electronic trading platform.

24.3. Where we effect or arrange a Transaction you shall comply with the Margin requirements applicable to such Transaction. Your failure to do so will constitute an Event of Default and will trigger close out of your position in respect of which you have failed to make payment of the required Margin.

24.4. Where you fail to provide Margin in clear funds received by us by the time at which your Margin Level reaches 50% (“**Close Out Level**” or “**Margin Close Out Level**”), we have the right to begin closing out all positions in your account in relation to the Transactions for which you have failed to provide Margin, starting from the positions which are most unprofitable for you. Where the Margin Level drops below 50% we will proceed with close out without further reference to you. There will be no further warning before close out. Any such closing

out under this Clause 25.4 shall be performed in compliance with our duty of best execution to you, in accordance with our Order Execution Policy.

- 24.5. Where you carry out trading activity on the Markets Web/Mobile Trading Platforms, we may send you an email and/or notification in the event that the value of your positions falls below 70%, or such other level as we may determine in our sole discretion, of the Initial Margin requirement as an early warning. We are not under an obligation to provide you with such warning and failure on our part to send you any such warning shall not give rise to any claim against us, whether in contract or otherwise, and does not affect any of our rights hereunder. We will not be providing you any warnings or notifications where you are a client using the MT4 and MT5 Electronic Trading Platform.
- 24.6. You shall be solely responsible for monitoring your position in respect of any Transaction and remaining informed at all times regarding the amount of Margin which may be payable by you at any given point in time, and any changes in Margin that may be introduced by us pursuant to Clause 24.7 below. We are under no obligation to contact you or give you any oral or written warning as to your failure to comply with the applicable Margin requirements. Safecap and the Group shall under no circumstances be liable for any direct or indirect loss suffered by you as a result of your failure to make timely payment in cleared funds of Margin amounts due by you.
- 24.7. We reserve the right to modify the Margin requirements to any positions of our customers for the purpose, inter alia, of preventing abusive trading and managing our market exposure in the following circumstances:
- We may change the Margin requirements applicable to any positions opened less than 1 (one) hour before the closing of the market of the underlying Financial Instrument (or other instrument) of the CFDs;
 - We may change the Margin requirements applicable to any positions opened less than 1 (one) hour after the opening of the market of the underlying Financial Instrument (or other instrument) of the CFDs;
 - We may change the Margin requirements applicable to any positions opened less than 1 (one) before and after any schedule earnings reports or announcements by the issuers of the underlying Financial Instrument (or other instrument) of the CFDs;
 - Where changes in Margin are necessary to control our total exposure, as stipulated in Clause 13.2 hereof.
 - Notwithstanding the above, we reserve the right to alter the timeframes for Margin changes stipulated in this Clause 24.7 in the event of unforeseen changes in the market conditions or where it is otherwise necessary to prevent abusive or manipulative trading. You are advised to monitor our Electronic Trading Platforms and the Website for up-to-date information regarding the Margin requirements.
- 24.8. Margin must be paid in freely available cleared funds, in such currency as is acceptable to us. In the absence of fraud or gross negligence on our part, we shall have no responsibility with regard to the consequences of any failure of a Margin payment to be made to us within the required timeframes in freely available cleared funds.
- 24.9. You undertake neither to create nor to have outstanding any security interest whatsoever over, nor to agree to assign or transfer, any of the cash margin transferred to us, except a lien routinely imposed on all securities in a clearing system in which such securities may be held.
- 24.10. In addition, and without prejudice to any rights which we may have under this Agreement or any Applicable Laws and Regulations, we shall have a general lien on all cash held by us or our Associates or our nominees on your behalf, to the extent of your liabilities to us, until the satisfaction of your financial obligations to us.
- 24.11. If there is an Event of Default or this Agreement terminates, we shall set-off the balance of Margin owed by you to us as well as any other financial obligations you may have due to us (as reasonably valued by us) against any amounts payable by us to you, before we return any remaining funds on your Account to you. The net amount, if any, payable between us following such set-off, shall take into account the Liquidation Amount payable under Clause 31 (**"Events of Default, Netting and Close Out"**).
- 24.12. Safecap may vary the required Margin and Close Out Level by giving you 10 (ten) calendar days prior notice in accordance with the provisions of Clause 45 (**"Amendments to this Agreement"**). We may vary the required Margin with immediate effect without prior notice where the following circumstances arise or it is reasonably

likely or possible that they will arise (in each case in the reasonable opinion of Safecap):

- a) Severe disruption in the financial market or material adverse changes which may affect one or more Transaction;
- b) Any developments or news or events which may have a material adverse effect on one or more Transactions;
- c) Significant volatility affecting one or more Transactions or the prices of one or more of the underlying financial instruments that comprise CFDs for which you maintain open positions;

- f) any actual or anticipated changes in the Applicable Laws and Regulations regarding the protection of Retail Clients.

- 24.13. The provisions of this Clause 24, are without prejudice to any other rights which we may have under this Agreement.

- 24.15. In the absence of fraud or negligence on our part, we shall not be liable for any direct or indirect, pecuniary or other loss, including loss of opportunity suffered by you as a result of any mistake or incorrect understanding or assessment of the risk involved in or consequences of any Transaction which you make with or through us, or for adverse consequences on your ability to meet your any of your financial obligations or commitments. The provisions of this Clause 24, are without prejudice to the provisions of Clause 33 (**"Exclusions, Limitation and Indemnity"**).

- 27.3. Safecap keeps and maintains books and accounting records of the Client Money held on behalf of its Clients.
- 27.4. The provisions in this Agreement related to client money, are subject to the terms and conditions of the banks and credit institutions with which such funds are held and through which such funds are transferred.

- 27.5. We co-operate with various credit institutions. A complete list of the credit institutions with which we co-operate can be found at our Website or, where applicable, at the relevant Electronic Trading Platform. A complete list of other payment service providers that we cooperate with can be found at https://content.markets.com/pdf/payment_service_providers.pdf.
- 27.6. Subject to the relevant Margin requirements, the minimum deposit amount which must be standing to the credit of your Account will be set out on our Website from time to time and will in any case not be lower than USD 100 (or the relevant currency equivalent).
- 27.7. Subject to the provisions of Clause 27.5 above, we do not charge fees for deposits or withdrawals of money transferred into or out of your Account with us. It remains however your responsibility to be aware at all times, of the transfer fees and/or any other fees and charges which are charged by the bank, payment service providers and any other service providers which you use for the transfer of funds to and from us.
- 27.8. Where we are faced with a charge back from any financial institution, which chargeback relates to your trading activity with us, we shall be entitled to provide such financial institution with such evidence of the client relationship as may be necessary in order for us to demonstrate to the relevant financial institution the existence of a trading relationship and relevant trading activity between us and you.
- 27.9. When you transfer money to your Account with us, the time taken for the funds to appear on your Account depends on the method used for transferring such funds. Deposits and withdrawals of funds can only be made to and from accounts in your own name.
- 27.10. When you transfer funds between two Accounts held with the Company, the funds would be available on the receiving Account on the day of the transfer.
- 27.11. We will endeavour to hold client money on your behalf with authorised credit institutions in the Republic of Cyprus and the European Union, however we may also hold your money outside the European Union. The funds will be kept in bank accounts denominated as clients' funds and clearly segregated from the Company's own funds. Funds deposited may be kept in one or more omnibus accounts with any authorised regulated credit institution which we will specify from time to time and will be held in our name denominated as clients' funds as set out above. The legal and regulatory regime applying to any such bank or payment processing company outside the European Union will be different from the legal and regulatory regime in Cyprus and the European Union and in the event of the insolvency or any other analogous proceedings in relation to that bank or payment processing company, your money may be treated differently from the treatment which would apply if the money was held with a bank in an account in Cyprus and the European Union. We will not be liable for the insolvency, acts or omissions of any third party referred to in this clause or for any loss suffered as a result of any shortfall in any omnibus account.
- 27.12. We deposit clients' money held on behalf of our clients in an account and/or accounts opened with a bank or receive funds through payment processing companies, provided that we have exercised all due care, skill and diligence in the selection, appointment and periodic review of such banks and payment processing companies and of the arrangements for the holding and safekeeping of clients' money which they have in place. With regards to the deposit of clients' funds, in the event we do not deposit clients' funds with a central bank, we exercise all due care, skill and diligence in the selection, appointment and periodic review of the credit institution, where the funds are placed and the arrangement for the holding of those funds. We shall take into account the expertise and reputation of the bank as well as the legal and regulatory requirements or market practices related to the holding of Clients' money that could adversely affect the protection afforded to the clients' money. We apply the same principles in the selection of payment processing companies we accept to receive clients' funds from.
- 27.13. We shall take all necessary measures in order to ensure that any clients' money deposited with a bank are identifiable separately from the cash belonging to the Company by means of differently titled accounts on the books of the bank (s) or other equivalent measures that achieve the same level of protection. Similarly, as per the requirements of the Applicable Laws and Regulations, we, on receiving any clients' funds, shall promptly place those funds into one or more accounts denoted as "clients' accounts". We apply the same principles for payment processing companies.

- 27.14. Where necessary, we shall apply diversification as to where clients' money are held, through the maintenance of accounts with several third party banks.
- 27.15. The Company may hold Clients' money in omnibus accounts with financial and credit institutions. In this respect, you are hereby warned that there is a risk of loss emanating from the use of omnibus accounts in financial or credit institutions. In such case it may not be possible to distinguish if the particular Client's funds are held by a certain financial or credit institution. Omnibus accounts may also hold other types of risks including legal, liquidation risk, haircut risk, third party risk etc.
- 27.16. In the event of insolvency or any other analogous proceedings in relation to a financial or credit institution (including payment processing company) where Client's funds are held, the Company (on behalf of the client) and/or the Client may only have an unsecured claim against the financial or credit institution, and the Client will be exposed to the risk that the money received by the Company from the financial or credit institution, is insufficient to satisfy the claims of the Client with claims in respect of the account. The Company does not accept any liability or responsibility for any resulting losses so in the unlikely event of default the proportionate loss shall affect all of the Company's clients' monies held in omnibus accounts with the financial or credit institution. To mitigate this risk the Clients' funds are being held in few reputable financial or credit institutions following rigorous due diligence and credit risk assessment and constant exposure monitoring is taking place.
- 27.17. You agree that we shall not be liable for any default of any counterparty, bank, payment processing company, custodian or other entity which holds money on your behalf or with or through whom transactions may be conducted.
- 27.18. Safecap will not be liable for loss suffered by you in connection to your funds held by us, unless such loss directly arises from our gross negligence, wilful default or fraud.

Custody of Financial Instruments

- 27.19. You instruct us to hold Custody Securities bought on your behalf until we receive further instructions from you. We will act as custodians and hold the Custody Securities on your behalf.
- 27.20. Safecap may hold Custody Securities in custody on behalf of the Client through third parties.
- 27.21. In order to ensure protection of Clients' Custody Securities, Safecap exercises due skill, care and diligence in its selection and arrangements with third parties. Safecap uses a well reputed third party and takes into account relevant national law on safekeeping of financial instruments. The third party may use External Custody Providers who have particular expertise in the provision of custody services.
- 27.22. The Client acknowledges, recognises and understands that where it is not possible to separately identify Custody Securities from proprietary financial instruments of the third party or an External Custody Provider under applicable national law, there is a risk that Safecap or the third party or its External Custody Providers may not be entitled to claim the Custody Securities from the bankruptcy estate of the third party or the External Custody Provider in bankruptcy which may result in the Client suffering loss.
- 27.23. Unless otherwise agree, dividend paid on shares held in custody may be paid to the Client less any applicable default withholding tax. Safecap is not obliged to or liable for claiming back any withheld tax unless otherwise agreed by Safecap and the Client
- 27.24. The Client should expect the dividend of Custody Securities to be credited to the Client's Account after it is made available to Safecap. The dividend is credited to the Client's Account on the condition that Safecap receives the relevant amount from the issuer, the third party or an External Custody Provider. If Safecap does not receive this amount, Safecap is entitled to reverse any amount deposited to the Client's Account. This applies whether or not it is expressly stated in the Account Statement or the notification of the deposit.
- 27.25. Custody Securities may be held on accounts which are subject to the law of another jurisdiction than an EU member state, which may entail that the Client's right to those Custody Securities may differ accordingly. Safecap may be required under such laws and practices to e.g. report the name and address of the Client, as well as the size, composition and returns of the Client's portfolio to foreign authorities and companies.

- 27.26. By accepting this Agreement, the Client agrees that Safecap may keep the Client's Custody Securities in an omnibus custody account. Omnibus custody accounts are used for registration of multiple Clients' Custody Securities in the name of Saxo Bank or any of its agents instead of the Client's name, with the relevant clearing institution or third party. Thus, the Client is not individually or personally entitled to compensation for any error made by the relevant clearing institution or third party. Safecap maintains records, clearly stating the individual Client's ownership to the Custody Securities kept in the omnibus custody account. Any Custody Securities kept in an omnibus custody account with Safecap or a third party will be responsible for claiming and collecting interest payment, dividends, income and other rights belonging to the Client.
