- d) close any open positions and reinstate them upon the then prevailing market price.

The client hereby, acknowledges, agrees and accepts that he / she shall bear all costs derived from the aforementioned action, including but not limited to, the cost on the change of the spread.

Where you have a Swap Free Account, you are obligated to close any open CFD position within forty-five (45) calendar days of opening thereof. - e) any other limits, parameters or controls which we may be required to implement in accordance with Applicable Regulations.

11.6. Trade Adjustments

Clients must be aware that the products offered by the Company carry a high degree of risk. The amount of Initial Margin may be small relative to the value of the face value of the Transaction as Transactions are 'leveraged' or 'geared'. A relatively small market movement in price or the rate of the foreign currency may have a proportionately larger impact on the profit or loss of the open position and thereby the funds that you have deposited or will have to deposit. This may work against you as well as for you.

The Company exclusively reserves the right to widen spreads, amend Initial Margin levels and adjust leverage without notice under certain market conditions including, but not limited to, when the Trading Desk is closed, around fundamental announcements, and at times of market volatility and low liquidity. In such circumstances you agree to indemnify the Company for any and all losses that may occur due the widening of spreads and the adjustment of leverage.

11.7. Execution of Orders

We shall use our reasonable endeavors to execute any order promptly, but in accepting your orders we do not represent or warrant that it will be possible to execute such order or that Execution will be possible according to your instructions. However, we advise you accordingly and based the terms and conditions that you may place pending orders during Out of Trading Hours. It is your responsibility to ensure that you remain informed at all times, of such minimum or maximum trade sizes or stakes which we may have in place.

- e) any other limits, parameters or controls which we may be required to implement in accordance with applicable laws and regulations.

11.9. CFDs on Cryptocurrencies

When trading in CFDs where the underlying asset is a cryptocurrency, you should be aware that the cryptocurrencies are traded on non-regulated decentralized digital exchanges. Accordingly, price formation and price movements of the cryptocurrencies depend solely on the internal rules of the particular digital exchange, which may be subject to change at any point in time and without notice. This often leads to a very high intra-day volatility in the prices of the cryptocurrencies which may be substantially higher compared to other instruments. Therefore, by trading CFDs on cryptocurrencies you accept a significantly higher risk of loss of your invested amounts which may occur within a very short time frame as a result of sudden adverse price movements of the cryptocurrencies.

We derive our market and pricing data on the cryptocurrencies from the digital decentralized exchanges the cryptocurrencies are traded on. Due to the non-regulated nature of such exchanges, the market data and price feed information provided by such exchanges may be subject to the internal rules and practices of such exchanges which may significantly differ from the rules and

practices observed by the regulated exchanges. In particular, you should be aware that the pricing formation rules of the cryptocurrency exchanges are not subject to any regulatory supervision and may be changed at the relevant digital exchange's discretion at any time. Similarly, such digital exchanges may introduce trading suspensions or take other actions that may result in suspension or cessation of trading on such exchanges or the price and market data feed becoming unavailable to us. The above factors could result in a material adverse effect on your open positions, including the loss of all of your invested amounts. Where a temporary or permanent disruption to or cessation of trading occurs on any digital exchange from which we derive our price feeds for the relevant cryptocurrency, your positions in such cryptocurrency will be priced at the last available price for the relevant cryptocurrency, and you may be unable to close or liquidate your position or withdraw any funds related to such position until the trading on the relevant digital exchange resumes (if at all). You accept that where trading resumes again at either the relevant original digital exchange or on any successor exchange thereof, there may be significant price differential (price gapping) which may impact the value of your CFD positions in the relevant cryptocurrencies and result in significant gains or losses. In the event that the trading resumes on any other successor exchange than the relevant original digital exchange, the Company reserves the right to perform adjustments in order to neutralize the effect of the price difference of the two exchanges. Where trading does not resume, your entire investment will potentially be lost.

11.10. Confirmations

At the end of each trading day, Confirmations for all Transactions that we have executed on your behalf on that trading day will be available via your online Account on our website in the 'Open Positions' window and Deal Blotter in the dealing console, which is updated online as each Transaction is executed.

Confirmation of Transactions and statements of your Account(s), in the absence of manifest error, shall be deemed correct, conclusive and binding upon you if not objected to by email if orders were placed through our Online Trading Platform or by telephone to the Trading Desk, within 48 hours of making such Transactions and the Confirmations being available to you via our website or we notify you of an error in the Confirmation within the same period.

11.11. Trailing Stop functionality in case that MetaTrader 4/5 ("MT4/5") Online Trading Platform is closed

In the event that the MT4/5 Online Trading Platform is closed or disconnected, Trailing Stop Orders will not be executed. Trailing Stops are maintained locally on your machine and therefore requires that your MT4/5 platform remains on and connected to the internet. If you disconnect the MT4/5 platform from the system, any open trailing stops will be converted to a hard stop or limit. Some products offered by the Company may not have a Trailing Stop function.

11.12. Improper or Abusive Trading

You are not allowed to enter into any form of prohibited trading as explained in this Clause. Should the Company determine, at its sole discretion and in good faith, that you or any representative of yours trading on behalf has motive and manipulation to engage in:

- Fraud;
- Attack;
- Commission laundering;
- Unusual transactions;

- Hedging by taking an offsetting position in a related instrument with a view of gaining profit (including but not limited to

risk free profiting) from beneficial trading conditions, bonuses during but not limited to periods of volatile market conditions, news announcements, market pauses, trading gaps;

- Internal Hedging in coordination with other parties, between same and/or different trading accounts;
- Arbitrage trading on prices offered by our platforms;

- Scalping

The Company without notice reserves the right to determine such situation at its discretion as “Invalid Transactions Caused by Willful Misconducts or Unusual Transactions”. This determination is made regardless of whether the situation was caused by the use of an Expert Advisor or third party.

Where such a determination is made, the Company reserves the right to deduct any profit or loss generated directly or indirectly from the trades in addition to the commission, in addition to exercising its right to cancel any improper or abusive orders without prior notice to you. Clients and agents of the Company herein acknowledge and agree that upon the final determination in relation to whether the situation constitutes “Invalid Transactions Caused by Willful Misconducts or Unusual Transactions” by the Company after the detailed investigation of the account, Clients and agents are required to fully obey without any objection.

The Company’s objective is to provide the most efficient trading liquidity available in the form of streaming, tradable prices for most of the financial instruments we offer on the Online Trading Platform. As a result of the highly automated nature of the delivery of these streaming, tradable prices, you acknowledge and accept that price misquotations are likely to occur from time to time. These misquotations, which may include ‘off market’ pricing, can occur at any time without notice to you or otherwise disrupt your trading experience. The Company has the right but not the obligation to inform you of the fact after you have traded using off market prices or misquotations. The Company reserves the right to cancel or adjust trades conducted on misquotations and off market prices so as to reflect the actual prices that would have applied to the trade.

Furthermore, should you execute trading strategies with the objective of exploiting such misquotations or off market pricing or otherwise in a manner that is inconsistent with fair market practice, the Company shall also consider that as “Invalid Transactions Caused by Willful Misconducts or Unusual Transactions”.

You agree and acknowledge that if the Company considers that an “Invalid Transactions Caused by Willful Misconducts or Unusual Transactions” has been made, then the Company may at its sole discretion and without prior notice to the Client, take one or more, or any portion of, the following actions:

- a) adjust the price spreads available to you;
- b) restrict your access to streaming, instantly tradable quotes, including providing manual quotation only;
- c) obtain from your account any historic trading profits that you have gained directly or indirectly through such, misquotations, manipulations or abuse of liquidity as determined by us at any time during our trading relationship;
- d) reject an order or to cancel a trade;
- e) if the conduct concerns scalping, to switch your account to any other liquidity provider/s or pools that it deems appropriate to facilitate that order type and execution.
- f) Adjust prices to reflect actual market prices; and/or
- g) immediately terminate our trading relationship with written notice.

11.13. Prohibited Trading

No employee or any of the Company’s related entities shall, during the term of their employment with the Company become a

client of the Company (either directly or indirectly, alone or with partners, associates, affiliates or any other third party).

11.14. Disabling and Cancelling Deposits

We have the right not to accept funds deposited by you and/or to cancel your deposits in the following circumstances:

- e) where the Company considers that there is a chargeback risk; and/or
- f) when you deposit \$10,000 or more in cash or if you make over ten (10) separate deposits to your Account and the Company is unable to verify your credit or debit card details or is unable to verify any other payment method used.

In case of cancelled deposits, and if there is not a confiscation of your funds by a supervisory authority on the grounds of money laundering suspicion or for any other legal infringement, your funds will be returned to the bank account from which they were initially received.

11.15. Absolute Discretion

The Company may refuse to accept an order, adjust an order, cancel an order, adjust an executed trade, cancel an executed trade or terminate this Agreement at any time by giving you notice as soon as practicable.

11.16. Adjustments on CFDs where the Underlying Asset is a Share

You acknowledge that if you hold an open CFD Transaction you have no ownership of the Underlying Asset or any rights attaching to ownership.

Notwithstanding you do not own the Underlying Asset, if you buy a CFD where the Underlying Asset is a share in a company you will hold a “long” CFD and your Account will be credited with an amount equal to the gross dividend on the relevant number of the CFDs as soon as practical, typically on the Business Day after the ex-dividend date. However, you agree and acknowledge such CFDs do not confer rights to any dividend imputation credits.

Conversely, if you sell a CFD where the Underlying Asset is a share in a company i.e. you will hold a “short” CFD and agree and acknowledge your Account will be debited by an amount equal to the gross dividend on the relevant number of the CFDs on the ex-dividend date.

Where the Underlying Asset of a CFD is a share in a company and if there is a corporate action by that company, you agree and acknowledge the Company may, in its discretion, make an adjustment to the terms of your CFD Transaction. For example, an adjustment will ordinarily be made by the Company for:

- subdivisions or splits;
- consolidations;
- reclassifications of shares;

- bonus issues;
- other issues of shares for no consideration;
- rights issues;
- buy backs;
- in specie distributions;
- takeovers;
- schemes of arrangement or similar corporate actions;
- a corporate action event that has a dilutive or concentrative effect on the market value of the shares;
- any other event in respect of which the Company (in its absolute discretion) decides an adjustment is appropriate.

You agree and acknowledge the Company has a discretion to determine the extent of the adjustment and has the right to decide to make an adjustment in any circumstance where we consider an adjustment is appropriate. Our discretion in this regard will be exercised reasonably in an effort to place you substantially in the same economic position that you would have been in had the adjustment event not occurred.

The Company may elect to change margin requirements, re-price or Close Out a position (without prior notice to you) if the Underlying Asset of the CFD (being a share) is the subject of a take-over offer, scheme of arrangement or other mechanism for change in control.

Notwithstanding the foregoing, the Company reserves the right to close all open positions relating to the underlying asset before the occurrence of a corporate action.

11.17. Trading in Underlying Assets which have been Suspended or Halted

An Underlying Asset may be suspended, delisted or subject to a trading halt on the relevant Exchange (or other market). In such circumstances, you acknowledge and agree that the Company may, in its absolute discretion, cancel any order which has not been executed, re-priced, changed margin requirements for or Closed Out.

Should the Company exercise its discretion to Close Out any open Transaction it will also exercise its discretion to determine a price or value. You acknowledge that the Company's discretion is unfettered and so has no condition or qualification. Our discretion in determining a price or value will be exercised reasonably. You acknowledge you have the risk of relying on whatever price or value is determined by the Company.

If the Underlying Asset is a security (share) which ceases to be quoted on the relevant Exchange or is suspended from quotation for three consecutive Business Days on that Exchange, or such lesser period agreed between you and the Company, you acknowledge and agree that the Company has a discretion to Close Out your open Transaction at a price determined in our unfettered discretion.

Such events may affect your transactions and our business. In this case, we will take all the necessary measures to remedy and rectify the situation fairly on a case-by-case basis. Remedies include correcting deal entry prices or exit prices according to the correct market rates at the time of transaction. We may need to cancel any transaction(s) executed incorrectly due to a price misquote, open the position again at the correct market price and/or make an adjustment (either positive or negative) to your account. We will make our best efforts to contact you and inform you of our actions, by telephone or by e-mail.

d) Manifest Error

A manifest error can occur when a wrong price has been dealt on. This can be due to human error in the form of a misquote, or a computer fault. If the Company does change a price from the one dealt at, then it will do so to a fair price which represents where the price should have been at the time of the deal.

13. MARGINING ARRANGEMENTS

13.1. Margin call

You acknowledge and agree that the Company has the right to Close Out open Transactions held by you without contacting you first.

13.2. Opening Transactions

Before you enter into a Transaction, The Company requires you to have sufficient Equity in your Account to meet the relevant Initial Margin applicable to the Company product. Margin requirement is set by the Company and calculated as a percentage of the full-face value of the relevant the Company product. Our website discloses the Initial Margin amounts applicable to each product the Company offers. The Company may amend the amount of Initial Margins from time to time in our sole and absolute discretion.

If you wish to open a Transaction and you do not have sufficient funds (or Equity) in your Account to meet the Initial Margin, our Online Trading Platform will not allow the order or Transaction to be processed.

13.3. Maintaining Open Transactions

If there is an adverse movement in the value of a Transaction we will require additional funds from you to cover the amount of the adverse movement and to supplement the Initial Margin. This means, in order for you to continue to hold open Transactions you must maintain sufficient funds or Equity in your Account to cover the Initial Margin and the value of any adverse market movements (generally known as maintenance margin).

You acknowledge that you may be required to deposit a substantial additional sum at short notice to maintain your Margin balances at a sufficient level to cover adverse price movements (i.e. unrealised losses). This means you may be subject to a Margin Call to pay additional Margin if there are insufficient funds in your Account or you have insufficient Equity.

During the period your contract/s remains open with the Company, you must maintain a Margin Level of at least 50%. The Margin Level is a percentage calculated as follows: (Total Equity divided by Used Margin) multiplied by 100, where:

- a) The Used Margin is the amount of funds required to ensure you have enough money to cover against losses on all of your open contracts at any one time; and
- b) For calculation purposes, all relevant figures of Equity and Used Margin will be converted into your account currency.

Once your Margin Level reaches 50% or less, the Company may in its entire discretion and without further notice, Close Out all of your open positions unless additional funds are deposited into the Account or the market moves such that the account value returns

above the minimum Margin Level. We reserve the right to close all CFD positions until your Equity reaches 50% of the margin level, or until there are no open CFD positions.

You acknowledge that if you do not maintain sufficient funds or Equity to meet the Margin requirements to maintain an open Transaction(s) your open Transaction will be Closed Out by the Company.

We will take reasonable steps to notify you before we Close Out your open position(s) and Margin Calls may be made by notification via our Online Trading Platform.

You acknowledge and agree that it is your responsibility to actively monitor and manage your Transactions and your obligations, including ensuring that you maintain sufficient funds to meet Margin requirements to maintain your open positions.

13.4. Margin Call Notification

If your Margin Level is 50% or less, we must close all open positions on your Account and cancel all Orders:

- a) We will close your open positions and cancel all Orders with or without giving you notice. If we do so without giving notice, we will inform you in our Online Trading Platform that we have done so.
- b) The Company is not obligated to tell you if your account is close to liquidation. However, as a courtesy, the Company may attempt to send you a Margin Call notification when the Margin Level reaches 100%. It is your sole responsibility to ensure that you monitor your Margin Level. You must ensure that you log into the Online Trading Platform on a regular basis to monitor your Equity and any relevant notifications and that you maintain an email address at all times and keep us up to date and informed of your current email address. The Company will not use any other means of communication to tell you when your account reaches these margin levels.
- c) Margin Level is a percentage calculated as follows: $(\text{Total Equity} \div \text{Used Margin}) \times 100$. For calculation purposes, all relevant figures will be converted into your Base Currency.
- d) You must monitor your Account, and all relevant factors, so that you know the current Margin Level, Equity and whether or not your account is at risk of being liquidated.

13.5. Liquidation

The Company will be required to Close Out any or all of your open Transactions where a Margin Call has not been met or Margin Level decreases below 50% due to adverse price movements, without prior notification to you.

When a Margin Call is not met by you by lodging additional funds or Closing Out some or all of your open Transactions and the Margin Level decreases below 50%, you acknowledge and agree that our Online Trading Platform will automatically identify which open Transactions are in an unrealised loss position, we will Close Out the open Transactions with the largest unrealised loss first and continue Closing Out open Transactions with the next highest unrealised loss, until additional funds are deposited or the market moves such that the Margin Level is above 50%.

At this stage, no further automated notifications will be made to clients informing them that some or all of their open Transactions have been Closed Out. Clients will be able to see which of their open Transactions have been Closed Out by logging into their Account on our Online Trading Platform.
