TILTED IMPLANTS

IMMEDIATE REHABILITATION OF ATRHOPIC JAWS

21 - 23 SEPT 2023

COURSE OBJECTIVES

- Be familiar with **Tilted Implants** treatment concept, including **All-on-4®** and **Trefoil™**, as a cost-efficient and **predictable** option for edentulous patients
- Recognize the importance of **prosthetically-driven implant planning** in order to achieve immediate provisional results that are highly esthetic
- Be familiar with all technical steps in order to deliver a **highly functional and esthetic final restoration**
- Be familiar with final restorative options which are **easy to maintain** for the patient and clinician

eae INTERNATIONAL MEDICAL TRAINING CENTER

COURSE LANGUAGE: ENGLISH - ITALIAN

The tilted implant approach has been a revolutionary technique that has changed the way total implant-supported rehabilitation is done.

Increased patient comfort, time savings, cost savings, and improved esthetic outcome are just some of the advantages brought by these treatments in modern dentistry.

Thanks to new trans-sinusal and trans-crestal implant placement methods, it is possible to avoid bone grafting and take advantage of residual bone by tilting the implants not only in the mesto-distal but also in the palato-vestibular direction.

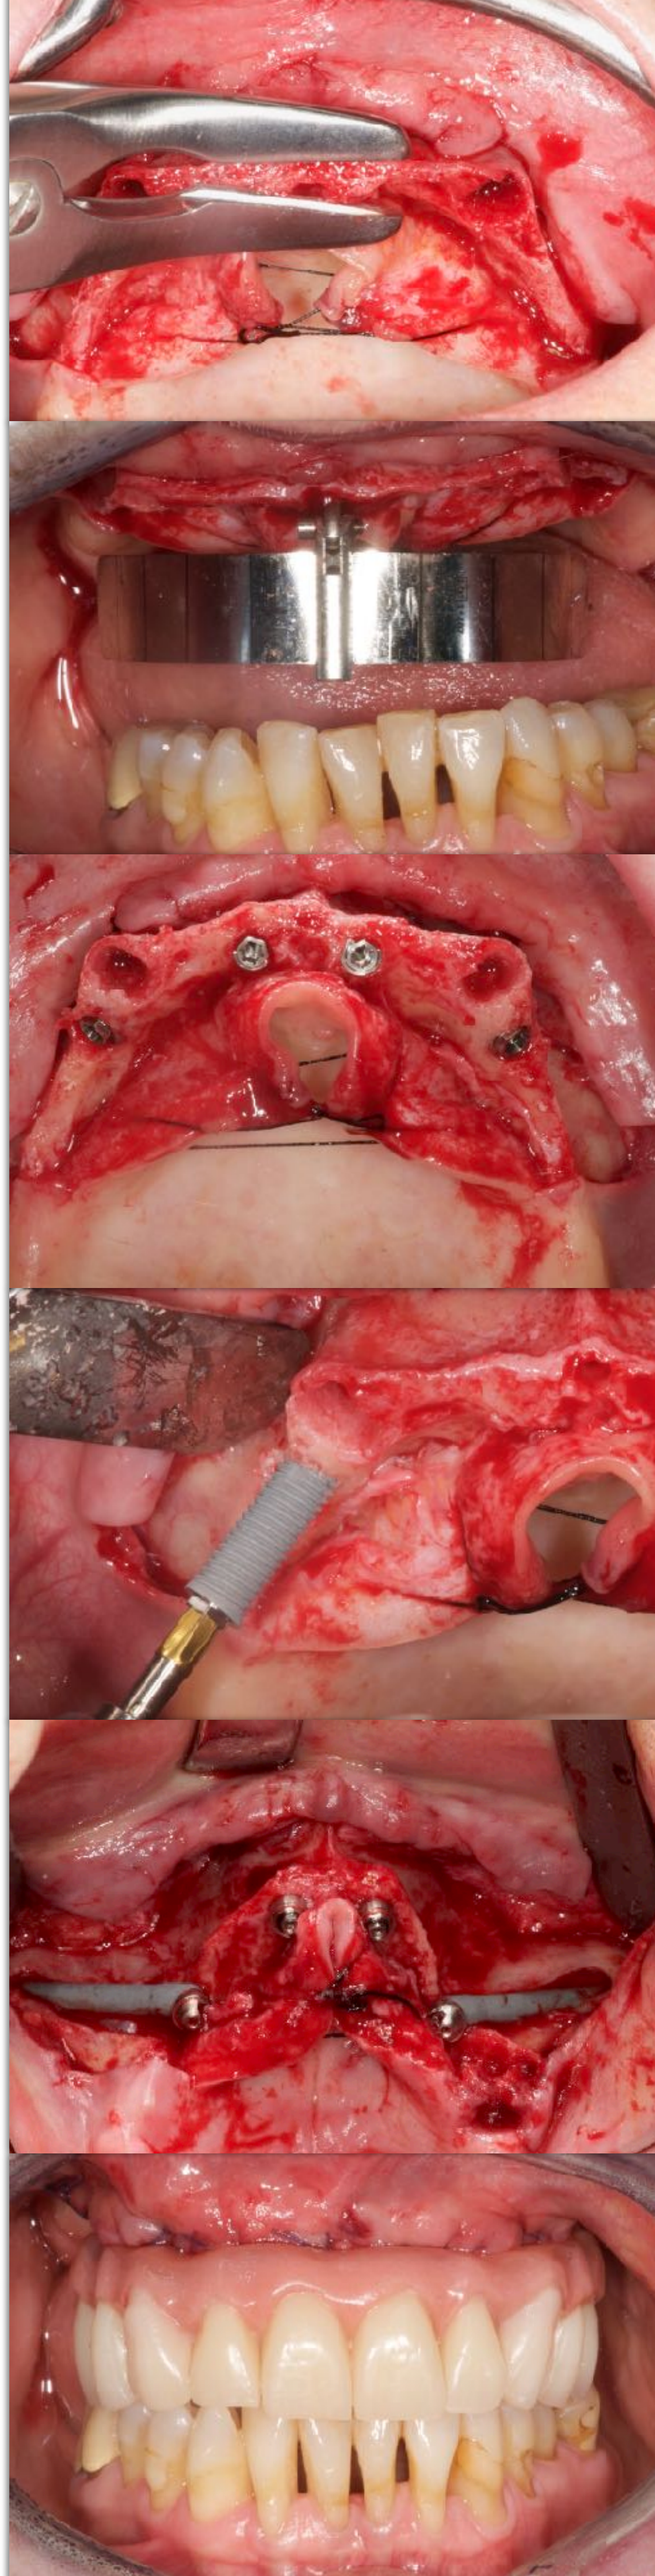

During this course you will learn how to provide immediate aesthetic rehabilitation a few hours after surgery ensuring immediate loading in every situation.

FOLLOW UP

The entire team has gained extensive experience in treating edentulous patients with the use of fillers and tilted implants by successfully achieving more than 15 years of follow-up.

HANDS-ON

You will be able to try the original protocols with your own hands and place implants according to the Tilted Implants approach. Through surgery on plastic models, it will be possible for each participant to try All-on-4 and Zygomatic implants as well as the positioning of the provisional prosthesis.

SESSION 1

- 10:00-11:30 Rehabilitation of compromised patients without bone grafting
- 11:30-12:00 Coffee break
- 12:00-13:30 Immediate loading and surgical planning
- 13: 30-14:30 Lunch
- 14:30-16:00 Surgical protocol , all-on-4, trefoil, trans-sinus, v-II-V
- 16:00-16:30 Coffee - break
- 16:30-18:00 Hands on surgical protocol all-on-4 and trefoil

SESSION 2

- 9:00-11:30 Live surgery [all-on-4/trefoil]
- 11:30-12:00 Coffee break
- 12:00-13:30 Live provisional prosthetic phases
- 13: 30-14:30 Lunch
- 14:30-15:30 Provisional protocol
- 16:00-16:30 Coffee - break
- 16:30-18:00 Hands on provisional protocol

SESSION 3

- 9:00-10:30 Live surgery [all-on-4/trefoil]
- 10:30-11:00 Coffee break
- 11:30-12:30 High skill & zygoma rehabilitation
- 12:30-13:30 Definitive protocol
- 13: 30-14:30 Lunch
- 14:30-16:00 Hands-on Zygoma
- 16:00-16:30 Hygiene maintenance
- 16:30-18:00 Q&A session

SPEAKERS

PROF. ENRICO L. AGLIARDI

DR. ENRICO L. AGLIARDI IS DOCTOR OF MEDICINE AND SURGERY, SPECIALIST IN MAXILLOFACIAL SURGERY AND ORTHOGNATODONTICS "UNIVERSITÀ DEGLI STUDI" OF MILAN.

FROM DECEMBER 2009 IS CHIEF OF SPECIAL REHABILITATION SURGERY DEPARTMENT OF SAN RAFFAELE DENTAL CLINIC, DIRECTED BY PROF. ENRICO GHERLONE. MANY YEAR-EXPERIENCE IN ORAL, ORTHOGNATHIC, PRE-PROSTHETIC AND PRE-IMPLANT SURGERY, ADVANCED IMPLANTOLOGY [INTRAORAL AND EXTRAORAL IMPLANTS].

PROFESSOR OF SPECIAL REHABILITATION SURGERY, FACULTY OF MEDICINE AND SURGERY, COURSE OF DENTISTRY, UNIVERSITY VITA-SALUTE S. RAFFAELE MILAN.

SUPERVISOR OF VARIOUS NATIONAL AND INTERNATIONAL CONGRESSES AND AUTHOR AND CO-AUTHOR OF SEVERAL NATIONAL AND INTERNATIONAL PUBLICATIONS AND BOOKS.

DR. MATTEO CLERICO'

DOCTOR IN DENTISTRY SINCE 2004 WHEN HE OBTAINED HIS DEGREE AT UNIVERSITY OF MILAN.

WORKING WITH DR. ENRICO AGLIARDI FOR MORE THAN 10 YEARS TREATING COMPROMISED PATIENTS FROM PRE-SURGICAL PLANNING TO PROSTHETIC FINALIZATION AND LONG-TERM MAINTANANCE. CO-AUTHOR OF SCIENTIFIC ARTICLES AND BOOKS.
