

RECAP

November 9- November 20

INTERNATIONAL DAY

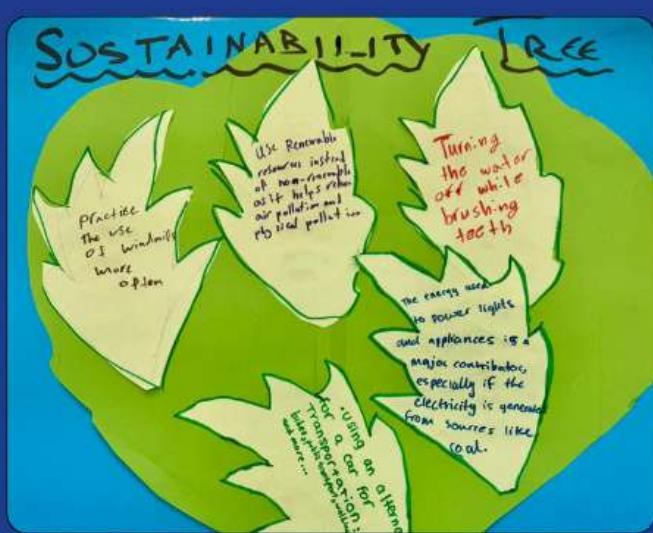

A vibrant celebration of cultures, traditions, and unity! Students, staff, and teachers came together to showcase national costumes, performances, and delicious cuisines, reflecting the spirit of diversity and global friendship at ISME.

QATAR SUSTAINABILITY WEEK

Qatar Sustainability Week inspired students to take action for a greener future through hands-on activities such as poster design, environmental projects, and awareness discussions focused on protecting our planet and promoting sustainable living.

HARMFUL EFFECTS OF BODY BUILDING SUPPLEMENTS

From Pumping to Poisoning!

Our Grade 12 Health Science seniors led an eye-opening session for high school boys, shedding light on the hidden dangers of protein supplements, energy boosters, and misleading social media health trends, while promoting safe and informed choices for a healthier lifestyle.

STUDENT AWARENESS SESSION ON PROHIBITED & DANGEROUS SUBSTANCES

An educational lecture conducted by experts from the Ministry of Interior highlighted key topics on health, safety, and the harmful effects of prohibited and dangerous substances, empowering students to make safe, informed, and responsible choices.

QATAR UNIVERSITY ORIENTATION FOR GRADES 11 & 12

Qatar University representatives delivered an informative orientation for our Grade 11 and Grade 12 students, guiding them through admission requirements, academic programs, and university life, and helping them make confident decisions about their future pathways.

CYBERSECURITY AWARENESS SESSION

Students participated in an engaging session focused on digital safety, learning how to protect their personal information, recognize online threats, and practice responsible technology use.

SKETCH CARS LIKE A DESIGNER" WORKSHOP

ISME students took part in the “Sketch Cars Like a Designer” workshop — a 3-day hands-on experience led by professional designer and engineer Jaber Henzab, organized by Maroon Mavericks and Al Kawaser. Students learned car sketching basics, perspective drawing, and design thinking, creating their own concept designs. The top sketches will be showcased at the upcoming Qatar Auto Museum Classic Cars Show.

AFTER SCHOOL CLUBS

Our after-school clubs are officially underway, offering students exciting opportunities to explore their interests, develop new skills, and connect with peers in a fun and supportive environment.
