What Happened Around the School This Week

Our first days of school were all about welcoming, reconnecting, and starting the year on a positive note. Students and staff returned to campus with enthusiasm, ready to build new connections, embrace new opportunities, and begin another exciting year of learning and growth. Guided by our theme for this academic year, "Together We Collaborate, Innovate, and Transform," we look forward to a year filled with teamwork, creativity, meaningful learning, and shared success across our school community.

TOGETHER WE COLLABORATE

Our Meet & Greet was a wonderful opportunity to welcome our parents, connect with teachers, and strengthen our home-school partnership. It was a warm and positive start to a year of collaboration and shared success.

Welcome back, students! A new school year brings new opportunities to learn, grow, explore, and achieve. Believe in yourselves, support one another, and make every day count. Together, let's collaborate, innovate, and transform!

Meet Our New School Counselor

Meet our new School Counselor, Ms. Fiza Ali! Ms. Fiza kicked off the year with engaging orientation sessions for our Grade 9 and Grade 12 students. Grade 9 students received guidance on transitioning into high school, academic expectations, and goal setting, while our seniors explored graduation requirements, university preparation, and future pathways. These sessions helped students begin the year feeling informed, supported, and confident about the journey ahead.

Our Grade 12 students have started preparing for an exciting next chapter: university! With the support of our School Counselor, Ms. Fiza Ali, seniors are receiving guidance on university applications, admission requirements, important deadlines, and planning their future pathways. Our goal is to ensure that every student feels informed, prepared, and confident as they take their next steps toward higher education.

Value of the Month: Brotherhood

This year, we continue the Ministry of Education and Higher Education's "My Values Shape My Identity" initiatives, beginning with "Brotherhood" (Ekhaa) under the slogan "My Stance is Responsibility." Brotherhood encourages students to build positive friendships, include others, show kindness, offer support, and stand up for what is right. As our students settle into their classes, we want them to recognize that their response matters. Laughing along, staying silent, or joining in when someone is being hurt can encourage the behavior to continue. Choosing not to participate, supporting others, or seeking help from a trusted adult can make a positive difference. Together, let us build a community where every student feels respected, supported, and that they belong.
