What Happened Around the School This Week

This week, ISME came alive with colors, traditions, and cultural pride as we celebrated International Day 2026! Students, teachers, and parents came together for a vibrant celebration of the diverse cultures and nationalities that make our school community so special.

Dressed in beautiful traditional attire, students proudly represented their countries through a Parade of Nations, cultural performances, traditional dances, music, and displays that highlighted the richness of our global community.

INTERNATIONAL DAY AT ISME

The celebration provided a wonderful opportunity for students to learn about different cultures, appreciate traditions, and embrace the values of respect, unity, inclusion, and global citizenship.

A heartfelt thank you to our students, parents, teachers, and staff for their enthusiasm, creativity, and contributions to making this event memorable.

World Diabetes Day: Raising Awareness, Promoting Healthy Living!

In recognition of World Diabetes Day, our ISME Health Club organized an engaging awareness initiative to educate students about diabetes, its prevention, and the importance of maintaining a healthy lifestyle.

Through interactive activities, informative discussions, and awareness campaigns, students explored the importance of balanced nutrition, regular physical activity, recognizing diabetes symptoms, and understanding the role of early detection and effective management.

The initiative also provided our Health Club members with a valuable opportunity to demonstrate student leadership, teamwork, and community responsibility while encouraging their peers to make informed choices about their health and wellbeing.

Najah University Fair: Exploring Future Opportunities!

Our Grade 12 students had the opportunity to attend the Najah Doha University Fair, an exciting event bringing together universities and higher education institutions from Qatar and around the world.

During the visit, students explored a wide range of academic programs, university admission requirements, scholarships, and future career pathways. They also had the opportunity to engage directly with university representatives, ask questions, and gain valuable insights into their options after graduation.

This experience was an important step in helping our seniors make informed decisions about their academic futures, encouraging them to explore their interests, set goals, and prepare confidently for the next chapter of their educational journey.

ISME Students Shine in Arabic and English Debate Competitions!

Our ISME students proudly participated in Arabic and English Debate Competitions, demonstrating their critical thinking, public speaking, communication, and argumentation skills while representing our school with confidence and enthusiasm.

Through these competitions, students had the opportunity to explore different perspectives, construct persuasive arguments, respond thoughtfully to opposing viewpoints, and engage in meaningful discussions on a variety of topics.

Participating in debates in both languages highlights our commitment to developing confident, articulate, and open-minded communicators who can express their ideas effectively and respectfully.

School Olympics: Celebrating Teamwork, Determination & Sportsmanship!

Our ISME students proudly participated in the School Olympic Program (SOP), competing in football and swimming competitions alongside students from schools across Qatar.

Our football players demonstrated teamwork, determination, and resilience as they competed on the field, while our swimmers showcased their discipline, endurance, and individual skills in the pool.

These competitions provided valuable opportunities for students to challenge themselves, develop their athletic abilities, and experience the importance of sportsmanship, perseverance, and healthy competition.

We are proud of all our student-athletes for their dedication and enthusiasm in representing ISME and extend our appreciation to the coaches and teachers who continue to support and encourage them.

Chemistry Olympiad: Celebrating Scientific Excellence!

We are proud to recognize Fatima Al Zahraa Salem, Hashem Khasawneh, and Abdalla Badr for representing ISME in the Chemistry Olympiad!

Their participation provided a valuable opportunity to challenge their scientific knowledge, apply critical thinking and problem-solving skills, and explore chemistry beyond the classroom.

The Chemistry Olympiad encourages students to develop a deeper understanding of scientific concepts while fostering curiosity, analytical thinking, and a passion for scientific discovery.

We congratulate our students on their participation and commend their dedication, enthusiasm, and commitment to academic excellence. We look forward to supporting their continued growth and achievements in science!
