The fees stated above are for one academic year and are subject to an annual increase (normally between 2% and 5%).

Tuition fees for UK-fee students on the BMus programme are aligned with the maximum tuition fee cap set by the UK government.

There is no fee difference for students on ELQ status; they will pay the UK rate.

There is a guide to living costs on our [Living in London page](#).

The UK Government has not yet issued revised fee regulations for the 2021/22 academic year, so currently we are unable to give definitive advice to EU nationals about eligibility for UK or International fee status if they are joining a new course in September 2021.

We recommend you consult the [UKCISA website](#) ("Info & Advice" section) for the latest guidance about fee eligibility for the 2021/22 academic year.
